1	PROCEEDINGS	1	quickly. We are here today because Judge Palermo
2		2	ordered you to provide additional 30(b)(6) testimony,
3	STIPULATION:	3	and you also had agreed to provide testimony as you
4	All counsel present stipulate that the witness shall be	4	have produced new documents. I'll be asking you a
5	sworn remotely by the court reporter.	5	series of questions. You are required to respond
6		6	truthfully and honestly because you took an oath. Do
7	Whereupon	7	you understand that?
8	AZIM MAKANOJIYA,	8	A. I do.
9	a witness, called for examination, having been	9	Q. If you don't understand a question, let me
10	first duly sworn, was examined and testified as	10	know. I'll do my best to clarify it. Because the
11	follows:	11	court reporter is taking everything down, it's
12	EXAMINATION	12	important that you give all verbal responses and no
13	BY MS. SCHAEFER:	13	mumbling and yes and noes and no mm-hm, huh-uh. Also
14	Q. Good morning, Mr. Makanojiya.	14	let's try to not interrupt each other so that she can
15	A. Good morning.	15	take everything down clearly. If you want a break, let
16	Q. Thank you for being here today. As you know,	16	me know. Are you currently under the influence of any

18	matter. I'm here today with my colleague, Anne	18	A. No.
19	Collesano, who also represents the FTC. As you know,	19	Q. So I'm going to go ahead and mark the first
20	we are conducting this deposition virtually. We are	20	exhibit. We are going to start with 56 because at the
21	using Zoom to see each other and hear each other, and	21	last deposition we finished with 55.
22	we are using Agile Law to share documents. Before we	22	(Zaappaaz Deposition Exhibit Number 56 was
23	went on the record, we confirmed that we could see and	23	marked for identification.)
24	we could hear each other.	24	BY MS. SCHAEFER:
25	MS. SCHAEFER: Mr. Blanchard, can you go ahead	25	Q. Do you see the document?
	504		506
1	and introduce yourself.	1	A. Yes.
2	MR. BLANCHARD: This is Mike Blanchard	2	Q. Okay. So I have marked as Zaappaaz 56 the
3	representing the defendants.	3	30(b)(6) deposition notice that was served on Zaappaaz.
4	MS. SCHAEFER: Is anyone else here right now or	4	Have you seen this document before?
5	on the phone?	5	A. Yes.
6	MR. BLANCHARD: No. There is nobody else in	6	Q. And this notice listed a number of topics on
7	the conference room and nobody else on the phone, as	7	which Zaappaaz was required to designate someone to
8	far as I know.	8	provide testimony on the company's behalf. You have
9	MS. SCHAEFER: And are you planning on having	9	been offered as the company's designated representative
10	anyone join today?	10	to testify about the topics of this notice; is that
11	MR. BLANCHARD: No.	11	right?
12	MS. SCHAEFER: And just so we have this for the	12	A. Correct.
13	record, previously you had indicated that we might have	13	Q. You are also an individual defendant and your
14	some, I think, developers on the line from India to	14	personal deposition is noticed for today; is that
15	help with some questions about the chart we are going	15	right?
16	to be discussing with shipping and financial records.	16	A. Correct.
17	Is that no longer the case?	17	Q. And so like we did on August I'm sorry?
18	MR. BLANCHARD: No, that person is available by	18	MR. BLANCHARD: Nothing.
19	phone. So what I would hope to do is if you ask a	19	BY MS. SCHAEFER:
20	question that he needs assistance on, he can have that	20	Q. I thought I heard something. Like we did at
21	call, come back on the record and testify under oath to	21	the August 11th and 12th depositions, I'll do my best
22	respond to your question.	22	to indicate when I'm asking a question about Zaappaaz
23	MS. SCHAEFER: Okay. Sounds good. Thank you.	23	or about you personally.
24	BY MS SCHAEFER:	24	What did you do to prepare for today's
25	Q. So let's just go over the ground rules really	25	deposition?

	507		509
1	A. Went through the documents that were provided	1	A. Multiple people. We had a developer pull the
2	to me, the Excel sheet and other documents that my	2	data from our back end.
3	lawyers to provided to me to review.	3	Q. And what is the back end?
4	Q. Who provided them to you?	4	A. The database.
5	A. My counsel.	5	Q. Okay. And that is the database that contains
6	Q. Okay. And you said what were the documents?	6	all your shipping records; is that correct?
7	An Excel spreadsheet?	7	A. All my order records, yes.
8	A. There were multiple documents throughout the	8	Q. All your what records?
9	period from the last deposition, but Excel	9	A. Order records.
10	spreadsheets, transcripts.	10	Q. Okay. So all of the information in this
11	Q. Did you meet with your counsel?	11	spreadsheet came from your back end?
12	A. I had not met him but I had spoken with him on	12	A. No, other shipping data came from Fed Ex, UPS,
13	the phone.	13	USPS and the respective carriers' websites.
14	Q. How many times did you speak?	14	Q. What do you mean the respective carriers'
15	A. I don't know. It's been a lot.	15	websites?
16	Q. Was it between three and five times?	16	A. DHL is the only one that I missed. But, yes,
17	A. More.	17	FedEx.com, UPS.com, DHL.com.
18	MR. BLANCHARD: Objection. Asked and answered.	18	Q. Okay. Let's go to this reference tab. Well,
19	BY MS. SCHAEFER:	19	before we go on, I think I interrupted you. So you
20	Q. Was it between five and ten calls?	20	were talking about who helped prepare this spreadsheet.
21	MR. BLANCHARD: Objection. Asked and answered.	21	A. My developer.
22	BY MS. SCHAEFER:	22	Q. What is his name?
23	Q. You can still answer if he objects.	23	A. Priyank.
24	A. I don't know. I wouldn't be able to give you	24	Q. Anyone else?
25	the right answer. Maybe ten-plus calls.	25	A. Yes, a contractor that's familiar with how to
	508		510
1	Q. How many hours would you say you spent	1	organize data.
2	preparing?	2	Q. Did you hire that contractor just for purposes
3	A. I don't know, throughout the period, maybe	3	of this spreadsheet?
4	spent almost 40 hours.	4	A. That's correct.
5	Q. Between the last deposition and this	5	Q. And what does it mean to be familiar with
6	deposition?	6	organizing data?
7	A. Approximately, yes.	7	A. This is a lot of data coming from a lot of
8	Q. And did you meet with anyone else in	8	places, so to put them into a spreadsheet and compiling
9	preparation for today's deposition?	9	it is no easy task. So it takes a lot of man hours to
10	A. No.	10	do that. So I don't know what it entails individually,
11	Q. I'm opening the spreadsheet. Can you guys see	11	but we give him all the data and he merges it all in
12	my screen?	12	into a single spreadsheet.
13	MR. BLANCHARD: Not yet. There it is.	13	Q. I do want to just note for the record I don't
14	MS. SCHAEFER: Do you see it?	14	think I clearly identified this exhibit. This is
15	MR. BLANCHARD: Yep. And just, Azim, do you	15	Zaappaaz Exhibit 57.
16	have the spreadsheet? Michelle, if you want to refer	16	(Zaappaaz Deposition Exhibit Number 57 was
17	to column numbers and cells and things, he's got it up	17	marked for identification.)
18	on a screen right in front of him.	18	BY MS. SCHAEFER:
19	MS. SCHAEFER: Okay.	19	Q. And it's the spreadsheet's Bates number
20	BY MS. SCHAEFER:	20	Zaappaaz 0020596. So did anyone else help with this
21	Q. Are you familiar with this document?	21	spreadsheet?
22	A. I am.	22	A. No.
23	Q. And what is this document?	23	Q. So it was just Priyank and this expert in
24	A. A list of all PPE orders.	24	A. Andrei is the name, A-N-D-R-E-I.
25	Q. And who prepared this document?	25	Q. Andrei. And is Andrei in the United States?

	511		513
1	A. He is in the Philippines.	1	open communication. If a refund is done, it also gets
2	Q. How did you find Andrei?	2	logged in our back end.
3	A. Through subcontract websites. He was not hired	3	Q. Okay. And when you talk about refunds, are you
4	specifically for this sheet. He's done work maybe here	4	encompassing chargebacks in refunds or are you talking
5	and there. So I just wanted to clarify that.	5	about refunds as being distinct from chargebacks?
6	Q. Does this spreadsheet contain all the and I	6	A. There's refunds, there's chargebacks, there's
7	also just wanted to mention that we will be using the	7	fraudulent which is kind of a sub category of
8	definition of covered products, as we've done before,	8	chargebacks. Product not satisfied is a sub category
9	that is identified in the 30(b)(6) notice.	9	of chargebacks, but all that entails into refund and
10	So does this encompass all the covered product	10	chargebacks.
11	sales that Zaappaaz made between March 2020 and	11	Q. So you said there's refunds, chargebacks,
12	December 2020?	12	fraudulent chargebacks and what was the last one?
13	A. Correct.	13	A. I'm just trying to tell you chargebacks has
14	Q. Does it only contain data related to covered	14	multiple sub categories in that. I think you might
15	products?	15	find that in the sheet.
16	A. I believe so, correct.	16	Q. But my question is really just about are you
17	Q. Does it contain all refunds to consumers	17	saying that a chargeback is considered different than a
18	related to the sale of covered products?	18	fraudulent chargeback?
19	A. I won't say all of them, but as much as we	19	A. Absolutely. Well, I mean, a chargeback is a
20	could compile and bring into this, yes.	20	general definition of what it is, meaning a customer
21	Q. Why wouldn't it contain all of it?	21	had some issue with the order. Now, it could be that
22	A. This sheet contains our back end, which is our	22	someone used his card and he was not knowingly known
23	database. It contains FedEx data, UPS data, these are	23	about the purchasing. That's considered a fraudulent
24	all independent data. So you are getting, I'll assume,	24	chargeback. Product not satisfactory, they received a
25	probably 15 sheets were taken and merged into this. We	25	product that they were not satisfied of. That's a
	512		514
1	had multiple processors that we had to compile data	1	chargeback. So there's multiple definitions of a
2	from. We had multiple online processors such as	2	chargeback.
3	Paypal. We had Stripe. We had Braintree, which we had	3	Q. So I guess what you are saying is there's the
4	compiled and tracked data from and we had to merge it	4	definition of the chargeback and then various reasons
5	into this. So we did the best we could in terms of	5	why one would occur?
6	merging all that data into it. Our system does not	6	A. Correct.
7	track refunds or at this time it did not have a	7	Q. And my question is so just in terms of the
8	functional aspect to track refunds.	8	broader category of chargebacks that encompass all the
9	Q. And so in order to track them, did you have to	9	other specific reasons for the chargeback, when you
10	bring in all this information from these different	10	talk about refunds and that you didn't track them at
11	platforms you just identified?	11	first and then you said now you do, are you
12	A. Correct.	12 13	encompassing chargebacks within that category?
13 14	Q. And do you track refunds now? A. We do.	14	<ul><li>A. No.</li><li>Q. So do you track chargebacks now?</li></ul>
15	Q. And how do you when did you start tracking	15	A. We do.
16	them?	16	Q. And when did you start tracking chargebacks?
17	A. About two months ago.	17	A. About maybe three months ago.
18	Q. How do you track them?	18	Q. Prior to that, you did not track
19	A. Directly with processors.	19	A. Clarify. We always tracked chargebacks. We
20	Q. What was that?	20	just didn't have a way to automate it where it was
21	A. We connect everything with these processors.	21	logged into our back end. But now within the last
22	Q. What does it mean to connect directly with the	22	three months, we now are able to log it into our back
23	processors?	23	end.
24	A. We have an open communication with them.	24	Q. I see. And so how would you track chargebacks
25	Before we were manually doing this, but now we have an	25	before you actually put them in the back end?
	, ,		• • •

	515		517
1	A. There would be notifications that there's a	1	MS. SCHAEFER: Do you see that now?
2	chargeback on an order.	2	MR. BLANCHARD: Yep.
3	Q. Were those e-mails stored in any places?	3	BY MS. SCHAEFER:
4	A. I mean, they would send an automated e-mail.	4	Q. So sorry, that might be what created the
5	Q. How would you track refunds before you started	5	confusion. So here you see the source files; is that
6	logging them?	6	right?
7	A. We didn't track them. We just refunded.	7	A. Correct.
8	Q. How do you know that all of the orders in this	8	Q. And what are these files?
9	chart are orders related to Zaappaaz and not one of	9	A. I explained number 2 already. Number 3
10	your other companies that sold PPE?	10	Q. What was number 2?
11	A. This is from Zaappaaz's database. Zaappaaz's	11	A. All PPE orders from the 20th of March to
12	shared database.	12	December 20th I mean, December 2020.
13	Q. So I'm just going to click on the reference	13	Q. It says latest?
14	sheet here and ask you to tell me what the source files	14	A. Correct.
15	are, just one by one. Let's start with the top one.	15	Q. And so is this the source file for columns A to
16	What is all PPE orders March 20th through December 20th	16	Y and EL to ET?
17	latest?	17	A. Correct.
18	A. All PPE orders for March 20th through	18	Q. And then you have this next file which are
19	December 20th.	19	source files; is that right?
20	Q. What does that represent, that source file?	20	A. Correct.
21	Was in that file?	21	Q. And that provides a source for columns EV to
22	A. All PPE orders.	22	FT?
23	Q. And what information?	23	A. Correct.
24	A. I'm sorry, I don't understand what you are	24	Q. And then we have this all PPE orders March 20th
25	asking.	25	through December 20th, all total disputes?
	516		518
1			
	() What information is in this document, in this	1	A. Correct.
1 2	Q. What information is in this document, in this source file?	1 2	A. Correct.  O. And does that provide the source of information
2	source file?	2	Q. And does that provide the source of information
	source file?  A. This is pretty much all the data I have of	1	
2 3	source file?  A. This is pretty much all the data I have of customers on that specific order.	2 3	Q. And does that provide the source of information for columns FV to GA?

23	and it just gets stored in our database.	23	that's what's being pulled from here.
24	Q. And what about the actual order information,	24	Q. Let's go to the Fed Ex full report. Is that
25	the date, the amount, the product?	25	information that you maintain?
	the date, the amount, the product:	23	miormation that you maintain.
	520		522
1	A. Yeah, same thing. Correct, it just takes a	1	A. No, we do not.
2	snapshot of when they place the order and imposes it	2	Q. And who maintains that information?
3	into our database.	3	A. FedEx.com.
4	Q. And now let's talk about the dispute source	4	Q. And who pulled the information?
5	files. Is the information in those files the type of	5	A. I think I had one of my CSRs pull it.
6	information that you maintain in Zaappaaz's business?	6	Q. And do you have access to FedEx databases that
7	MR. BLANCHARD: Objection to form.	7	allow you to pull this information?
8	THE WITNESS: We do not.	8	A. It's normal practice. FedEx.com, you log into
9	BY MS. SCHAEFER:	9	your account and then you basically put a date range
10	Q. So where did you get that information from?	10	and have them extract the data from there.
11	A. From their respective websites, Braintree.com,	11	Q. I have the same question about going back up to
12	Stripe.com, Paypal.com, their relative sites are our	12	the six disputes. Are you able to I know you talked
13	processors.	13	about this a little bit, but I'm trying to clarify, are
13	Q. Who accesses that information?	14	
15	A. In some cases a processor themselves. We	15	you able to access that information through their
		1	platforms?
16	e-mail them and they provide us the data.	16	A. Stripe we can. Braintree we cannot. The
17	Q. But for purposes of this source file and	17	accounts are closed. Amazon we cannot. So Amazon,
18	providing information for the master chart, and I'm	18	again, is not something that we have access to, nor
19	referring to the master chart as this chart 002059	19	those disputes are into this since we don't have the
20	A. Right. Provided by the vendors.	20	account for it. But some items we don't have access
21	Q. Provided by the vendors. And for these	21	to. We have to go through some representative.
22	particular source files that you produced to us as a	22	Q. Well, I guess, so here it says dispute six.
23	basis for the information in the chart, who generated	23	What's the six mean?
24	those spreadsheets? Was it Priyank?	24	A. It's from six different files.
25	A. I believe I generated the spreadsheets or I	25	Q. Six different files. Not six different

	523		525
1	processors?	1	Q. And so how did you access that information?
2	A. Could be. I'm not sure. If you want to open	2	A. He provided it to me.
3	up the files, I'm more than happy to give you my guess	3	Q. And then the next source file is 951124010.
4	on it, but I don't know what the six means.	4	And that account number, do you know what it
5	Q. We'll open those files later on. Do you know	5	represents?
6	what payment processors, the dispute information would	6	A. No.
7	come from, though?	7	Q. I do. And it's I'm not going to pronounce
8	A. Everyone we get processing from. We get	8	this. GZ Hishuang E-business Company, Limited?
9	Braintree. Before Braintree, we had Empire Payment	9	A. I think it's also a Chandler company.
10	Tech, I believe, was our other processor, which is	10	Q. But you are not sure?
11	Fiserv. We have Stripe and then we have Paypal.	11	A. I would say probably 90 percent. I can assure
12	Q. Are you saying that you have access to Stripe,	12	you that it's maintained by Chandler. I don't know the
13	and what about Fisery? Does this include information	13	relevance to the company, but, yes.
14	from Fisery?	14	Q. Do you have access to those records?
15	A. I do not have yes, it does.	15	A. I do not.
16	Q. And you have information from Paypal, which is	16	Q. How did you generate the spreadsheet?
17	Paypal dispute in red?	17	A. Requested it from Chandler.
18	A. Correct.	18	Q. And then the next one is V6225Y. What is that
19	Q. And you said it does not include information	19	account?
20	from Amazon because you weren't able to get it anymore?	20	A. I believe it's the same thing, Chandler's
21	A. Correct.	21	accounts requested by sent by the Chinese team as
22	Q. And Braintree you were able to get it, but	22	well. We don't maintain it.
23	because you asked for it. Not because you could access	23	Q. So is V6225Y not a UPS account?
24	any platform?	24	A. It is.
25	A. Correct.	25	Q. Is it one of the Chinese suppliers' UPS
	524		526
1	Q. So let's just go back up to file 905350633.	1	account?
2	And that's the source for AT to EJ. Is that	2	A. I believe so.
3	information that's retained in the normal course?	3	Q. And then we have the Paypal dispute source
4	A. No.	4	file. Where did you get that information?
5	Q. And what information is that?	5	A. Paypal.com.
6	A. Same thing I believe as Fed Ex full report.	6	Q. Did you have access to that?
7	Just a different account.	7	A. I did.
8	Q. And account is 905350633?	8	Q. And is that information you maintain in the
9	A. I don't know what account it is. It's just a	9	normal course?
10	shipping account.	10	A. We do not.
11	Q. Well, I can tell you it's My Speed Limited.	11	Q. So let's start by going through columns A
12	A. Correct, the Chinese account.	12	through Y. So what is column A? Is column A an order
13	Q. What is My Speed Limited?	13	ID?
14	A. The Chinese shipper out of China.	14	A. Correct.
15	Q. And who owns that company? What individual?	15	Q. And then you have column B, the date of the
16	A. Chandler.	16	order?
17	Q. What is his last name?	17	A. Correct.
18	A. I don't know what his real last name is, but	18	Q. And you have the column C, the product name,
19	Liu, L-I-U.	19	and then the SKU is column D. Let's go over to
20	Q. And he was one of your suppliers that you had	20	production days. Tell me, what does this represent?
21	the relationship with?	21	A. Which column are you at?
22	A. Correct.	22	Q. I'm in column G.
23	Q. And is the information in that file information	23	A. Okay.
24	you maintain in the normal course?	24	Q. So what does column G represent?
25	A. I do not.	25	A. How long it takes for production.
23	A. 1 do not.	23	A. How long it takes for production.

	527		529
1	Q. Why would covered products have production	1	say, for something, and then it says one shipping day,
2	days?	2	can one assume that the package was supposed to be
3	A. Packaging, shipping, whatever it may be	3	shipped the same day?
4	required.	4	A. Next business day.
5	Q. So that goes into production days?	5	Q. What if it was zero production days and let's
6	A. Correct.	6	say three shipping days?
7	Q. And how do you determine what the production	7	A. Three business days, following the next
8	days are?	8	business day.
9	A. Based on our feedback from our warehouse or the	9	Q. What would that mean?
10	Chinese vendors.	10	A. Three business days following the next business
11	Q. How do weekends affect this?	11	day. That's your first business day.
12	A. Production days does not count. It only counts	12	Q. Can you explain that to me? I don't
13	business days.	13	understand. So three days following?
14	Q. What about holidays?	14	A. Yeah, so if you place an order today, your
15	A. Does not count holidays. It goes off of U.S.	15	first business day is tomorrow. So it would go out
16	metrics or U.S. standards.	16	tomorrow.
17	Q. Why would the same product have different	17	Q. So if it's still it's next-day shipping.
18	production days? Would it be because it would depend	18	Let's say zero days, that's my question. Zero days
19	on packaging?	19	production, three days shipping, you are saying it
20	A. Volume of orders, variants of packaging. I	20	would go out the next business day?
21	mean, it's fluctuating in number of orders,	21	A. Correct.
22	availability of how many workers were working at that	22	Q. What about if it was zero production and five
23	time, et cetera. So we changed it by the feedbacks	23	shipping days?
24	that we received.	24	A. Same analogy. It would ship out the next day
25	Q. And in terms of changing it, do you change	25	and be delivered in five business days.
	528		530
1	that is it code that changes it?	1	Q. It's still going to be shipped the next day.
2	A. We can change it, yes.	2	It's just going to take longer for delivery?
3	Q. And do your developers do that work? I'm	3	A. Correct.
4	assuming it's technical work?	4	Q. Presumably is it because of the price people
5	A. Correct.	5	paid for shipping?
6	Q. Does Priyank do that work for you?	6	A. Well, I mean, I don't think majority of them
7	A. That is correct.	7	pay for shipping unless it's a one-day. But the two
8	Q. Let's go to shipping days. What does this	8	days, and I don't know what metric it is, so we have
9	represent?	9	scanners for a free shipping metric.
10	A. How long it takes to ship after it's been	10	Q. For all orders?
11	delivered I mean, after the production days are	11	A. For all orders there is a free shipping option,
12	done.	12	I believe so, yes.
13	Q. So it's how many days it will take to get to	13	Q. So do the days, the amount of days depend on,
14	the consumer?	14	you know, the logistics, the circumstances at issue in
15	A. Correct.	15	terms of products and what you have and what you don't
16	Q. How do weekends affect this?	16	have?
17	A. Same thing. Business days only.	17	A. Sure. I mean, when I'm anticipating inventory
18	Q. Do products not ship Saturdays and Sundays?	18	and addressing production days and shipping days which
19	A. They don't get delivered Saturdays and Sundays	19	calculates to our delivery day.
20	and, yes, they do not ship Saturday and Sunday either.	20	MR. BLANCHARD: Michelle, can we take a quick
21	Q. Do holidays affect shipping days?	21	break.
22	A. Absolutely.	22	MS. SCHAEFER: Sure.
23	Q. How do they affect it?	23	(A recess was taken.)
24	A. They don't ship or they don't get packed.	24	BY MS. SCHAEFER:
25	Q. So if there are zero production days, let's	25	Q. So I have a question. If someone orders a

12/14/2021

531 533 product on a Friday night after 6:00, when would that 17th was a Friday, from what I can tell, shipped out on 1 1 2 2 Monday, and the 29th should have been the delivery product ship? 3 A. Monday. 3 date, according to a seven-day turnaround. 4 Q. And would the website not allow anyone to 4 Q. So are you saying that there sometimes it might 5 choose an earlier delivery date? 5 be different? The delivery date might not be a sum of 6 A. I don't think so. 6 production and shipping because of the weekend issue or 7 7 Q. In other words, does the system adjust so that the holiday issues? 8 orders will not be shipped during the weekend? 8 MR. BLANCHARD: Objection. Misstates 9 A. Yeah, it will not show the weekend as a 9 testimony. 10 delivery date, correct. 10 THE WITNESS: No. I think I have answered 11 Q. What is shipping price in column I? 11 that. We didn't count -- shipping and production does A. If they pay for a shipping price, upgraded the 12 12 not count weekends nor holidays. 13 shipping. 13 BY MS. SCHAEFER: 14 Q. And now column J, what is delivery date? 14 Q. What other reasons would account for the fact 15 A. What we propose that the customer receive the 15 that production plus shipping doesn't get you to product at based on production plus shipping equated to 16 16 delivery date? 17 delivery date. 17 MR. BLANCHARD: Objection. Assumes facts not 18 Q. So production days plus shipping days gives you 18 in evidence. 19 delivery date? 19 THE WITNESS: If you give me a reference, I can 20 A. Correct. 20 tell you. I don't know. I don't know what you are 21 Q. In some instances, though, when you add 21 referring to. This one does not say that. 22 production days and shipping days, it doesn't equal 22 BY MS. SCHAEFER: 23 delivery date. Do you know why that would be? 23 Q. I'm just saying this one shows that it was 24 A. If you could give me an example, I could ordered on the 17th. Production plus shipping is the 24 explain maybe. 25 25 7th. You said that you add that to get you to the 532 534 1 1 Q. So here we have an order for a no-contact delivery date of April 24th, but you are noting that 2 infrared thermometer. So it was ordered on April 17th, 2 this is a weekend order or this -and you have three production days, four shipping days, 3 A. The 24th, that's a total of seven business 3 4 4 which should get you to the 24th, but then it gets you 5 5 to the 29th. So I'm just asking why would it be -- why Q. Right. And then the delivery date was the 6 that delivery date? Wouldn't it be seven days from 6 29th. 7 7 April 17th? A. Correct. So the 29th would be the seventh or 8 8 A. Let me look. the eighth business day, correct. 9 9 Q. I'm sorry, did you answer? I didn't hear you MR. BLANCHARD: She said start logging on, 10 10 Michelle. 11 A. No, not yet. One second. 11 MS. SCHAEFER: She said to log on now? 12 12 MR. BLANCHARD: She just sent a link. Q. Okay. 13 13 MS. SCHAEFER: So we have to go before the A. What should the date be? What are you 14 referencing? 14 Court for a quick hearing. 15 Q. My question, is you said that usually the 15 (Pause in the proceedings.) formula is you add -- take the original order date. 16 BY MS. SCHAEFER: 16 You take production plus shipping gets you to delivery; 17 17 Q. I just wanted to, we were walking through this 18 is that right? 18 order I had highlighted when I was talking about 19 A. Correct. 19 production plus shipping days. And so what day of the 20 Q. But in some instances I have noticed that there 20 week is the 17th? 21 is a lot of orders where production plus shipping 21 A. I believe it's a Friday. 22 doesn't equal delivery. There is additional days in 22 Q. It is a Friday? 23 there. And so I'm wondering what would account for 23 A. I believe so, yeah. 24 those additional days? 24 MR. BLANCHARD: I checked, Michelle. It is. 25 A. I don't think this example entails that. The 25 BY MS. SCHAEFER:

	535		537
1	Q. So it's a Friday. So then it's seven business	1	information. So for example, if you look at row 13,
2	days, and it would go out Monday?	2	there's nothing in there. If you look at row 25,
3	A. Correct.	3	there's nothing in there. In other words, certain
4	Q. So it would go out the 19th, and then the 19th	4	orders have no tracking information associated with
5	plus seven is the 26th, isn't it?	5	them. What would account for those blanks?
6	A. There's also weekends in there.	6	A. I'll try to see if I can decide without
7	MS. COLLESANO: Monday is the 20th.	7	Priyank.
8	BY MS. SCHAEFER:	8	MR. BLANCHARD: Which row do you want to talk
9	Q. Monday is the 20th. Sorry. I think I'm	9	about?
10	confusing myself. So you order it on a Friday, okay.	10	BY MS. SCHAEFER:
11	This is a Friday. Production plus shipping is seven	11	Q. I'm just wondering in general. No specific
12	days. Because it's a Friday, when is it going to go	12	row. I want to know what would account for the fact
13	out? What day? April what?	13	that some orders have no tracking information. And if
14	A. Monday, the 20th.	14	you don't know, you can say you don't know.
15	Q. And then you add seven days to that, which	15	A. I would say I don't know, but I do see a
16	is	16	tracking for row number 13. Yeah, it's probably
17	A. No, you add five days to that. There's five	17	because there's two different products. If you look at
18	weekdays and then there's a Saturday/Sunday that comes	18	row 13 and row number 12, I think it's the same order.
19	in again.	19	Yeah, so it's that order number 12, that's why.
20	Q. Okay. So here we have, let's go to columns K	20	Q. Would that account for all the other blanks?
21	through T. Does that represent the customer	21	Are those blanks created because of multiple orders?
22	information, the name and address, where they live?	22	A. Could be. I mean, that's probably one
23	A. Correct. I don't know if they live there, but,	23	scenario, but, yeah, could be that.
24	yes.	24	Q. What are all the scenarios that could account
25	Q. Some address associated with them.	25	for that?
	536		538
1	A. Um-hum.	1	A. I don't know. I don't know.
2	Q. Okay. And then what is column U?	2	MR. BLANCHARD: Michelle, may I comment on
3	A. I believe that's the total that they paid.	3	something that I think would be helpful. If you look
4	Q. And then what is column V?	4	at 27 and 28, those are the same two order numbers as
5	A. The carrier.	5	well. And so
6	Q. And what about, why would there be carrier 2	6	BY MS. SCHAEFER:
7	and carrier 3?	7	Q. Okay. So I'm wondering why you see these
8	A. If multiple packages are shipped.	8	categories under tracking, cancel order, issued refund,
9	Q. What's in column Y?	9	cancelled order, issued refund, cancel issue refund,
10	A. Tracking.	10	cancelled, issued refund. Why are those categories
11	Q. How is column Y different than column AT?	11	under tracking?
12	A. Column AT, they are not different. It's just	12	A. Which column?
13	separated so you could easily look at it. There's	13	Q. Do you not see the drop-down?
14	multiple trackings in column Y separated by a column.	14	A. Yeah, the screen is a little far.
15	And it's just split up for you.	15	Q. Go to column AT and then hit the drop-down and
16	Q. Okay. So now let's look at columns AT through	16	scroll all the way to the very bottom. You'll see
17	EJ. So where did the information well, the	17	you'll start seeing categories that say cancel order,
18	information in these columns you already said, I'm	18	issued refund. Cancel.
19	going to reference, came from the source files in	19	A. In column Alpha Tom, AT?
20 21	purple; is that right?  A. Correct.	20 21	Q. Yes.
21		21 22	A. I don't see any of that.  Q. Look at my screen.
23	Q. And to the extent there are blanks, why would there be blanks?	23	A. If you could filter, Michelle, I mean, maybe
24	A. There are blanks?	24	there's like two or three of them.
25	Q. Like some orders just don't have order	25	Q. I mean, I don't even have to filter because all
23	2. Zine some orders just don't nave order		2. 2 mount 2 don 2 over mare to inter because an

	539		541
1	I do is I hit the drop-down menu and I scroll all the	1	Q. And those would be coming from Ship Easy or the
2	way to the bottom and they are all there. Do you not	2	label would have been printed from Shipping Easy and it
3	see the drop-down menu?	3	would have been or the label would have been printed
4	MR. BLANCHARD: We see it.	4	from Shipping Easy; is that right?
5	BY MS. SCHAEFER:	5	A. There's a lot more orders from Shipping Easy.
6	Q. If you have your computer, you can do exactly	6	I'm saying that those categories such as Freight Fed
7	that.	7	Ex, Drop Ship, Cancelled, Issue Refunds, those last
8	A. On AT?	8	maybe 10 categories that you see on that filter,
9	Q. AT. Are you looking at 0020596?	9	there's about 20 orders all together.
10	A. Yeah.	10	Q. Okay. And those would be from Shipping Easy?
11	MR. BLANCHARD: We both are, and I can't get it	11	A. Correct, yeah. We don't track those I mean,
12	on my laptop either, Michelle.	12	we cancel the order or we say it's been drop shipped
13	BY MS. SCHAEFER:	13	and the customer came and picked it up or whatever it
14	Q. What is column AT on your spreadsheet?	14	may be.
15	A. Tracking 1-9133.	15	Q. But then you don't track it on your back end?
16	Q. 91333?	16	A. I mean, not automated. If the customer service
17	A. Correct.	17	fulfills his job, then, yes, he should notate it at the
18	Q. Yep, that's what I'm looking at. Is the first	18	back end.
19	order number tracking number 445115198780?	19	Q. Now because of your new policy?
20	A. Correct.	20	A. No, before. Our new policy will actually
21	Q. And when you hit the drop-down menu	21	notate it automatically.
22	A. I mean, I'm trying to look for the filter	22	Q. I see. And before it wasn't automated, which
23 24	setting on this. I don't have it filtered. I think	23	created the problem or which you didn't track it?
24 25	you are filtering it.  Q. I am. Well, I filtered all the columns.	24	A. I mean, it didn't create a problem. We just
23	Q. 1 am. Wen, I intered an the columns.	25	didn't track it.
	540		542
1	A. That's what I'm trying to do right now. All	1	Q. I'm wondering, tell me what the differences
2	right, AT.	2	are what does drop ship mean?
3	Q. What are you looking at?	3	A. A customer basically or a drop ship actually
4	A. I'm going to give you the answers to what those	4	means if you order a product and we have another vendor
5	are.	5	drop it directly to your house, it doesn't come through
6	Q. Do you see them now?	6	us. We called one of our partners to ship it to you
7	A. Yeah, I see them. There's not that many, but,	7	directly.
8	yeah.	8	Q. Like your Chinese suppliers?
9	Q. I'm just wondering why are these categories	9	A. That could be considered drop ship, yeah, or I
10	under tracking?	10	could place an order on Amazon and have it shipped
11	A. So these datas are shipped from software using	11	directly to you. That's considered drop ship.
12	Shipping Easy, so we can classify these datas through	12	Q. What if it goes from your warehouse, what is
13	Shipping Easy. So that's probably where the data is	13	that considered?
14	coming from.	14	A. Shipping.
15	Q. So did you track refunds on Shipping Easy even	15	Q. But that's not drop shipping?
16	though you didn't track it on your back end system?	16 17	A. No.
17	A. Not refunds, but like if a label is created on	18	Q. What is DS?
18 19	Shipping Easy and we need to cancel that label, we would just select a category and call it cancelled.	19	<ul><li>A. Probably another definition for drop ship.</li><li>Q. What is Freight Fed Ex?</li></ul>
20	Q. And did you start using that system right when	20	A. Freight is what goes on pallet. So if someone
21	you got Shipping Easy?	20	orders 100 sanitizers, we can't ship it on a standard
22	A. That's correct.	22	box. You have to palletize it and ship it.
23	Q. Okay.	23	Q. And what about freight ship?
24	A. From my count, I think it's about 20 orders	24	A. Same thing.
25	that are in that category.	25	Q. And just so you know, when I filter on blank,
-	5		

	543		545
1	there's about 44,898 tracking well, I can do it now.	1	A. What is it?
2	So I'm filtering for all the blanks. And you can take	2	Q. The last two
3	a look, but do you still believe based on this filter	3	A. 80?
4	that blanks are caused when there's multiple orders?	4	Q. Yeah.
5	A. What are you filtering? Which column?	5	A. All I did is just searched the tracking. It
6	Q. So I did AT by blank, and those are all the	6	says "No record of this tracking number to be found at
7	ones you all the orders you don't have tracking	7	this time."
8	order information for.	8	Q. Where do you see that?
9	A. Yeah, that's not necessarily true. I mean, you	9	A. I just searched the tracking number on Google.
10	have tracking in Y. It's probably going into shipping	10	Q. Okay. And so is that to a certain extent what
11	2 or shipping 3 column. You see on column Y, there is	11	you had to do to find certain shipping dates?
12	tracking for some of the orders.	12	A. Yeah, that's exactly what we do. Well, I mean,
13	Q. Okay.	13	this data is coming from FedEx. So no, we didn't have
14	A. You filter those out and then, yes, maybe the	14	to do it for this data. So for some of the other stuff
15	other ones are probably duplicates.	15	to find delivery dates, delivery times, we have to
16	Q. Okay. I did the drop-down menu again, and the	16	manually go in. There's no other way that I know of.
17	very first tracking has a 1ZZ in front of it. Do you	17	Q. But if it came from FedEx, why wouldn't it have
18	see that?	18	a shipping date?
19	A. Um-hum.	19	A. I have no idea. Well, I'm searching for FedEx,
20	Q. So what does the ZZ mean? What does that mean?	20	that tracking number is showing no data on that
21	A. That's not my tracking. That's UPS tracking.	21	tracking. So I don't know why it would not have it,
22	Q. So you don't know what those letters mean?	22	but that's a FedEx question you would probably need to
23	A. No.	23	ask.
24	Q. I want to go through an example of something.	24	Q. But to the extent there are blanks here, do you
25	So I highlighted this order. So this order looks like	25	have are there any records that you have that would
	544		546
1	reusable cloth mask. There's no tracking all right.	1	be able to fill this information in?
2	Never mind. Okay. Let's go to AU. So AU, what does	2	A. No records that we have. I mean, we could
3	this information represent? What is shipping date?	3	Google it and see what data pulls up, and that's all we
4	A. When we ship the goods.	4	can do.
5	Q. And is that, when you ship the goods, is it	5	Q. Let's go to shipment delivery date. What's
6	when you put it in the hands of the shipper?	6	that date represent?
7	A. That is correct. This is data that's, I	7	A. That's when FedEx delivered the goods.
8	believe, coming from FedEx.	8	Q. And what would account for the blanks there?
9	Q. And what does it mean to put it into the hands	9	A. The previous blanks, which is the shipping
10	of the shipper according to you?	10	date. I guess maybe there's no data that FedEx has for
11	A. According to us, when they scan it.	11	that.
12	Q. When you create a label, does that constitute a	12	Q. So there are 19 tracking sections in this
13	shipping date?	13	section. Why 19?
14	A. I don't think so.	14	A. Sometimes you can't fit 19 products in one box,
15	Q. So there's also blanks here under shipping	15	so you have to create 19 different labels, and each
16	date. And what would account for the blanks for	16	label will have a tracking number.
17	shipping date?	17	Q. And how did you keep track of multiple orders
18	A. Can you give me an example and I can give you a	18	being delivered through several different trackings?
19	reference?	19	A. Say that again, I'm sorry.
20	Q. I mean for example, look at row 10.	20	Q. How would you keep track of multiple orders
21	A. Okay.	21	delivered to one customer?
22	Q. There is no shipping date.	22	A. By the tracking numbers, I guess.
23	A. Can I get the last two digits of the tracking	23	Q. Did there ever come a time between March and
24	number?	24	now when you lost track of the multiple orders going to
25	Q. The last two, 80.	25	one customer?
		<u> </u>	

	547		549
1	A. If we lost count?	1	A. 3 percent.
2	Q. Lost track.	2	Q. Three, 03?
3	A. I don't know what you mean by lost track.	3	A. Three percent, yeah.
4	Q. In other words, didn't know what when	4	Q. Let's go to EN. So what does this represent?
5	customers ordered various products and it required	5	A. This is a refund amount that is actually
6	various shipments, were there times where you lost	6	inputted into our back end by the CSRs manually.
7	track of the different packages, lost track of what	7	Q. I thought you said earlier that now it's
8	packages were going to the consumer?	8	tracked automatically?
9	MR. BLANCHARD: Objection.	9	A. Correct.
10	THE WITNESS: Maybe you need to clarify that.	10	Q. Previously, starting in March 2020 when you
11	I'm still not understanding what you are asking.	11	started selling covered product, they would do it
12	BY MS. SCHAEFER:	12	manually, presumably?
13	Q. Did the fact that customers ordered multiple	13	A. Correct.
14	shipments create problems for you?	14	Q. And does this category here, refund amount, in
15	A. No.	15	this section of the chart, include chargeback from
16	Q. Is there any significance to the color coding	16	credit card companies?
17	within the tracking part of the chart, all the	17	A. No. It could. I mean, if they manually
18	different colors?	18	inputted in there, but I don't think that was the
19	A. Just to view it easily, I guess.	19	policy.
20	Q. It doesn't have anything to do with the	20	Q. So was the policy to manually input refunds
21	underlying source documents?	21 22	coming from your account, Zaappaaz accounts?
22 23	A. No.	22 23	A. If a customer called and said I don't want a
23 24	Q. So now let's look at column EL through ET. Let's start with column EL. What does information in	23	product anymore, refund me \$500, that's something a CSR would be able to input right there. It's not something
25	here reflect? What is a tracking date?	25	they would have to go research on another platform.
	nere renect. What is a tracking date.	23	they would have to go research on another platform.
	548		550
1	A. I think the date the order got placed, I would	1	Q. My question is where do the refunds get drawn
2	assume.	2	from? Is it Zaappaaz's bank account?
3	Q. Okay. Now, what is EM?	3	A. Or my reserves. I mean, probably not my bank
4	A. EM is the payment type that the customer used.	4	account, but my reserves.
5	Q. Okay. And I have a question about purchase	5	Q. How are the reserves different than chargeback?
6	orders. How do purchase orders differ from, for	6	A. I don't know what that question means.
7	example, a credit card order?	7	Q. So where do I'm sorry. So you might draw
8	A. Are you familiar with the purchase order	8	the refunds from your reserves; is that right?
9	process?	9	MR. BLANCHARD: Objection. Form.
10	Q. No.	10	BY MS. SCHAEFER:
11	A. A purchase order is a customer sends an	11	Q. And then when there's a chargeback, where does
12	official document stating that they will purchase five	12	that money get drawn from?
13	masks and they'll give us an official document with a	13 14	A. Let's say today we did a business of \$1,000,
14 15	company header on it saying they are going to purchase five masks. They are assuming that we'll accept the	15	all right, and there's a chargeback for \$100. They'll take it out of the \$1,000 that we did of our business
16	purchase order and we will go ahead and ship the goods	16	for today. That's what I mean as reserves.
17	out and they will pay us on a net 30, net 60 or net 90	17	Q. So my question is refunds get drawn from
18	terms. During this time period, we did not accept	18	reserves; is that right?
19	purchase orders unless it was a customer that we knew	19	MR. BLANCHARD: Objection. Form.
20	of, but we didn't accept any purchase orders. It was	20	THE WITNESS: Most of the time, yes.
21	upfront payment or they had to send a check in before	21	BY MS. SCHAEFER:
22	we processed the order.	22	Q. Do chargebacks get drawn from reserves as well?
23	Q. So what percentage of sales would you say were	23	A. Most of the time, yes.
24	through purchase orders between, I don't know, March	24	Q. But the refunds reflected here under EN are
25	and December?	25	those that the company gave back to consumers and

	551		553
1	not	1	there was not a refund done, but it just means there
2	A. Not necessarily, no. I mean, this is just what	2	was no data in our back end.
3	the CSRs inputted into the back end, but, no, that's	3	Q. But that doesn't necessarily mean no refund was
4	not what it means necessarily.	4	done?
5	Q. So what would it mean?	5	A. Correct.
6	A. I mean, if you call our CSRs and told them that	6	Q. And would that be because of what you said, the
7	that I don't want a product and it was supposed to be a	7	CSRs might not have written it down?
8	\$200 issued refund, they would issue a \$200 refund and	8	A. Correct.
9	manually input that there's a \$200 refund done on this	9	Q. What about blank?
10	customer. Now, if the CSR forgets to put that notation	10	A. If you give me that row, I can make sure I have
11	that there was a \$200 refund, it would not show up on	11	it.
12	here.	12	Q. The order number?
13	Q. Okay. And now let's do the same analysis but	13 14	A. Yeah. It might be the duplication thing as
14	it's a chargeback. So you have a chargeback dispute,	15	well, same thing.
15	then company loses it, the payment processor, don't		Q. What is the duplication well, what is the
16	they automatically give the money back? Who gives the	16 17	duplication issue?
17	money back?	18	A. It's not an issue, but I mean, I guess it
18	A. The customer does.	18	didn't need any data in it since it's a same order
19	Q. No, the customer gets the money back. But	20	number.
20	where is that money coming from?	20 21	<ul><li>Q. It would have the same information?</li><li>A. Same order number.</li></ul>
21	MR. BLANCHARD: Objection. Form.	21 22	
22	THE WITNESS: From my account or from my	23	Q. Let's go to EO, reason for refund. And I pulled down the drop-down menu, and there's a whole
23	reserves.	24	bunch of categories. Who created these categories?
24	BY MS. SCHAEFER:	25	A. Those aren't categories that are created. They
25	Q. Okay. And is there a way for you to know	23	A. Those aren't categories that are created. They
	552		554
1	whether the refunds are because of a chargeback or	1	are actually typed in. So CSRs just type in or the
2	because, you know, you are just providing the refund	2	management types in why the refunds were done.
3	outside of the credit card dispute?	3	Q. So management decides what the reason for the
4	A. There's a column on there, there's a chargeback	4	refund is or types in the reason for the refund?
5	data sheet that kind of tells you.	5	MR. BLANCHARD: Objection. Form.
6	Q. So is the chargeback portion of the charge	6	THE WITNESS: I believe so, that's correct.
7	presumably accounting for just the chargeback dispute	7	BY MS. SCHAEFER:
8	amount?	8	Q. These would be inputted into your back end?
9	MR. BLANCHARD: Objection. Form.	9	A. That's correct.
10	THE WITNESS: Correct.	10	Q. What is a delay discount?
11	BY MS. SCHAEFER:	11	A. What?
12	Q. When you are deciding to issue a refund, who	12	Q. A delay discount?
13	would decide to issue the refund?	13	A. If the customer is willing to still accept the
14	A. Management.	14	order, we issue the refund on the shipping or whatever
15	Q. Tell me who is management.	15	it may be, whatever the compromise is.
16	A. Fatima and Eroze and Khalil.	16	Q. If there is a delay discount, does it mean that
17	Q. Would you also	17	there was no refund and the product shipped?
18	A. Sure, if it's a relative amount, yes.	18	A. Yes, most likely the product shipped. Let me
19	Q. Do CSRs have any independent ability to issue	19	rephrase that. If there was no refund and the product
20	refunds?	20	shipped, no. If there's a discount, then that means
21	A. I don't think so at this time.	21	there was a refund of some sort if you have a category
22	Q. Who would decide how much of a refund to issue?	22	there.
23	A. The management.	23	Q. Wait. Say that again, please.
24	Q. When you see a zero here, what does that mean?	24	A. Can you go ahead and rephrase your question.
25	A. It means there is no data. It does not mean	25	Q. Well, I asked if there's a delayed discount,

	559		561
1	decision.	1	with EQ?
2	A. Okay	2	A. No, completely isolated.
3	Q. What's that?	3	Q. Okay. So you think EQ refers to all your
4	A. I think it was.	4	subscriptions?
5	Q. So were there instances where you did ask that	5	A. I'm going to look at one more just to make
6	consumers return the covered products they bought?	6	sure. Line number 111284 shows a \$257 discount.
7	A. Me personally, no. I mean, I'm sure my CSRs	7	Q. And that's the same scenario?
8	did.	8	A. I'm checking now. I'm sorry, EQ is 164.50,
9	Q. What is discount? What does that represent?	9	correct. That is the same discount. They subscribed.
10	MR. BLANCHARD: For the record, the column EQ?	10	Q. What is column ER, international shipping?
11	BY MS. SCHAEFER:	11	A. If the order needed to go to Canada, Puerto
12	Q. EQ, yes.	12	Rico, Africa, anywhere international, shipping charges.
13	A. Maybe if you could find a discount order? I	13	Q. Does a zero reflect domestic shipments?
14	just want to clarify an order that has a discount or I	14	A. Yes, most likely.
15	could maybe just find it.	15	Q. Let's go to ET, order status.
16	Q. Are you looking for one?	16	A. Okay.
17	A. Yeah, I have found one.	17	Q. And let's just go, I selected the drop-down
18	Q. Okay. What row?	18	menu, and now let's just go, I want you to tell me what
19	A. 11251.	19	every category is. So what does cancelled mean?
20	Q. Wait, can you do the numbers to make it easier?	20	A. It means the order was cancelled. Maybe it
21	A. 11251. I just picked that randomly. Discount	21	wasn't shipped. Maybe it was shipped and it got
22	references, it's an automatic discount on the website	22	returned back to us. Multiple scenarios, but the order
23	if you order X amount of products. Like \$500, you get	23 24	was cancelled.
24	5 percent off. \$1,000 you get 10 percent off and it	25	Q. And if it was cancelled, why would a cancelled order ship?
25	just auto applied it.	23	order simp.
	560		562
1	Q. Wait. I'm sorry. What are you referring to?	1	A. Why would a cancelled order ship? Maybe it got
2	I see discount here 74.96.	2	shipped to the wrong address. Maybe it got damaged.
3	A. Correct.	3	Multiple scenarios.
4	Q. What does that reflect to you?	4	Q. What's a completed order?
5	A. The order was for a total of 1499.25. And I	5	A. Completed is the default status. When an order
6	believe that might be a 5 percent discount or no,	6	gets placed on our system and there's a payment
7	sorry, that is a subscription discount. They	7	attached to it, by default it goes to completed status.
8	subscribed, so they wanted repetitive orders on a	8	Q. And what is refunded?
9	continuous basis. This particular customer subscribed	9 10	A. Refunded, a CSR basically selects refunded if they refunded the customer the order.
10 11	to get every two weeks the same order.	11	Q. And why would there be blanks in this column?
12	<ul><li>Q. How can you tell that?</li><li>A. I'm looking at it on the back end. You can see</li></ul>	12	A. Probably the same scenario, a duplicate.
13	multiple orders for this customer, but if they did a	13	Q. In situations where an order status is either
14	subscription model, they got 5 percent off their order,	14	cancelled or refunded, and I don't have a specific
15	and I think that's what the 74.95 reflects.	15	example, I'm talking generally, but there is — so it
16	Q. What other reasons would there be for	16	says order was cancelled or refunded but then the
17	discounts? That's my question, what would be the	17	column EN shows zero, does that mean what does that
18	reasons to give discounts?	18	mean? What could that mean?
19	A. I think that column references subscription	19	A. I think you are going back to the same column.
20	discounts, I believe. We can look at another order.	20	I think you referenced it. I mean, if a CSR inputted
21	Q. So did this have nothing to do with column EO	21	it, then that's what it is. It doesn't mean that
22	reason for refund?	22	nothing was refunded.
23	A. No.	23	Q. Could it ever be a case where well, I guess
24	Q. Okay. And so to the extent we see, you know,	24	the charge didn't go through and that's why it was
25	delay discounts in column EO, that has nothing to do	25	zero?

	563		565
1	MR. BLANCHARD: Objection. Form.	1	Q. And so you don't know why a date would be
2	THE WITNESS: Again, I'm sorry?	2	there?
3	BY MS. SCHAEFER:	3	A. Correct.
4	Q. I'm trying to figure out if, so if an order was	4	Q. And do you think that would be the case for all
5	refunded, could an order ever be I guess what I'm	5	the orders that have the refund date and then a
6	wondering is could it be a situation where the refund	6	corresponding refund amount of zero?
7	amount is zero, the order status says cancelled, could	7	A. I don't know why, but it seems like there's
8	it be that the refund amount was zero because, for	8	something with relevance to that number, because if you
9 10	example, the charge was cancelled before it went	9	look at the time stamp, it's all the same. Maybe there
11	through? It was cancelled before the charge went through?	10 11	was a process that ran at that time or something like that, but it might be more of a developer question.
12	A. Sure. It's possible one scenario.	12	But like I said, the refund amount is manually done, so
13	MR. BLANCHARD: Michelle, can we take a	13	that's what it is. Or I think maybe a better yeah,
14	30-minute lunch break?	14	I don't know. It's more of a developer thing. Seems
15	MS. SCHAEFER: Yeah, let me just finish this	15	like the time stamps are all the same.
16	one. Let me just finish a couple more questions. No,	16	Q. Are the time stamps in column EL? I mean, what
17	we can take a break now.	17	time stamps?
18	(Whereupon, at 12:51 p.m., a lunch recess was	18	A. EP.
19	taken.)	19	Q. The refund date. If a CSR had not manually
20		20	entered the refund amount, would it be blank, this
21		21	column, or would there be a zero?
22		22	A. Zero probably.
23		23	MR. BLANCHARD: Michelle, can I help, please?
24		24	MS. SCHAEFER: Sure.
25		25	MR. BLANCHARD: If you look at column FN, there
	564		566
1	AFTERNOON SESSION	1	are amounts there. I'm just thinking it's clearly the
2	(1:31 p.m.)	2	subject of a dispute, I think. It looks like a 1
3	BY MS. SCHAEFER:	3	dispute.
4	Q. So I have one more question about columns EL to	4	THE WITNESS: I don't think that has references
5	ET that I wanted to ask. So if you look at EP, which	5	to that because the disputes were done externally. So
6	is refund date, there are instances where the date is	6	I mean, I think what it's doing, if I have to give it a
7	populated, suggesting that a refund was given, but then	7	best guess, I think it's doing a certain batch refund.
8 9	when you go to column EN, it shows zero. And I'm	8 9	It's doing it mainly every hour or doing it at a certain time of the day, and it's batching all orders
10	wondering if the fact that it shows zero is because of the fact that a CSR might have not manually entered it.	10	at once and seeing if there's a refund in those orders
11	Would that be why there would be a zero there?	11	and processing it. That's why there's a time stamp
12	A. What is that column, EP?	12	which are pretty much the same for all of them.
13	Q. Yeah, EP is refund date. If you look at the	13	BY MS. SCHAEFER:
14	first, you know, 12 entries there and you go to column	14	Q. And then what would account for the zero?
15	EN, it's zero all the way down. So I was wondering	15	A. That's just a zero. That's how the coding is
16	what would you would account for the zero there?	16	done.
17	A. Let's take a look. I'm looking at numbered	17	Q. What's batch processing? What do you mean by
18	row 7. One second. There was no refund for that	18	that?
19 20	order. I mean, the data just came like that with a	19 20	A. I'm just guessing. I don't know. I mean, I'm
21	refund date, 3/31, is that what the date is. <b>Q. Row 7?</b>	20	just saying that there is a process called batch processing where you don't want to do let's say, for
22	A. I don't know where 3/31 is pulling from. I	22	example, if we get 500 orders come in today, the batch
23	don't know where that date is pulling from, but	23	processes at midnight, meaning all orders get charged
24	Q. And you are looking at your back end?	24	at midnight, meaning like it gets settled at midnight.
25	A. Yeah. There is no refund on that order.	25	They don't happen instantaneously. Let's put it that

	567		569
1	way. So that's called batch processing.	1	A. Correct.
2	Q. And they would batch process refunds as well?	2	Q. Go ahead. That's the reason for the loss?
3	A. Yeah, just it's less load on the server, I	3	A. Exactly, correct.
4	would assume. But again, it's a developer question. I	4	Q. And who comes up with these reasons?
5	have no idea.	5	A. The processor.
6	MR. BLANCHARD: Do you want us to call and try	6	Q. And do these reasons that are in the drop-down
7	and get an answer to that question, Michelle?	7	menu come from the various payment processors you use?
8	MS. SCHAEFER: I mean, if you want to.	8	A. That's all just one processor, I would assume,
9	THE WITNESS: I think he should be	9	since it's one file.
10	MR. BLANCHARD: Can we go off? Before we do,	10	Q. Do you know what processor it was?
11	the question, as I understand it, is we are looking at	11	A. I would have to go see where it was charged to,
12	column EP, refund date, correct?	12	but, no, I don't know what processor it was right off
13	MS. SCHAEFER: Correct.	13	the top of my head.
14	MR. BLANCHARD: And the question is why would	14	Q. For the reasons lost, I'm going to ask the same
15	there be a date there and no refund amount?	15	thing. Well, based on your previous answer, do these
16	MS. SCHAEFER: Correct.	16	categories, are they created by one data processor?
17	MR. BLANCHARD: All right. We'll make this	17	A. Correct.
18	call and get right back on.	18	Q. And EY is the date the dispute was lost?
19	(Pause in the proceedings.)	19	A. Sure, correct. Yeah.
20	MR. BLANCHARD: There might be an error in the	20	Q. Okay. And then we go to EZ, which is
21	script which was run to pull all of this data, but he's	21	count won. And what does that mean?
22	going to the verify and e-mail us back. So we should	22	A. If we won the dispute.
23	have that e-mail soon.	23	Q. And then we have FA, which is the amount won.
24	MS. SCHAEFER: Okay.	24	And then FB is the reason for the win. And who comes
25	BY MS. SCHAEFER:	25	up with these reasons that we see in the drop-down?
	568		570
1	Q. Let's move on now to columns EV through FG,	1	A. Processor.
2	which we will call the dispute section of the chart.	2	Q. And is this from one processor?
3	And my first question is, is there relevance to the	3	A. I think that whole sheet is from one processor,
4	color coding we see of orange, green and blue and	4	the green highlighting.
5	purple and orange?	5	Q. Okay. And now let's go to FD, what is count
6	A. I think it's multiple files, separated by	6	closed?
7	multiple files.	7	A. If there was it's not a dispute, but it was,
8	Q. What does that mean?	8	I would assume, a resolution was that they closed the
9	A. You might have six different colors, I think,	9	account. They closed the dispute.
10	referencing six different files in that parentheses.	10	Q. Okay. And what about the reason closed, who
11	Q. Okay. So we have orange, green, blue, purple,	11	provides those reasons?
12	orange, green, yep. So it's the seven underlying	12	A. Same thing, processor.
13	sources of information? Is it the seven underlying	13	Q. Is that one processor?
14	sources of information?	14	A. Everything in the green under green, I believe,
15	A. Six or seven.	15	is all one processor.
16	Q. And I went to reference. Is it it's	16	Q. We are in blue right now.
17	referring to the six here next to the disputes?	17	A. Yeah, but if you look at the bar, the green bar
18	A. The colored screen, yeah, it should be.	18	is all from one file, the six files.
19	Q. Let's start with, just let's look at EV through	19	Q. Okay. So I guess now I'm confused. So we have
20	FG, and let's start with column EV. What does count	20	orange, green and blue that we looked through.
21	lost mean?	21	A. You see the dark green on the top?
22	A. If we lost a dispute.	22	Q. Yes.
23	Q. And is EW the amount that was lost?	23	A. Yeah, so that is all one processor. Underneath
24	A. Yes.	24	that they are separating it by different files that are
25	Q. And then we have EX?	25	in the folder.
			19 (Dames 5(7 to 570)

			,,
	571		573
1	Q. Well, okay, because then that doesn't make	1	you won with probably multiple processors. Not just
2	sense to me, because if you look at reference, green,	2	one.
3	my understanding was, reflects the source files for,	3	A. Correct.
4	you know, this chargeback information, dispute	4	Q. And then if you go to blue, FD count closed,
5	information we are looking at. But you said that it	5	your testimony was those were resolved, you think, or
6	comes from the various processors you use. But now you	6	were separate you lost or you won, it's another
7	are saying it comes from one processor is what I'm	7	category. Again, there would have been resolutions
8	understanding.	8	with you and customers through other payment
9	A. I believe so. I believe all that is from one	9	processors, more than one?
10	processor.	10	A. Correct.
11	Q. So that would be EV to, let's say, FT?	11	Q. So I'm confused how these can just come from
12	A. Sure, correct.	12	one file.
13	Q. That does not make sense, because you said,	13	A. Well, what is the other one?
14	okay, the key, the reference key shows that all of the	14	Q. We'll move on. So now let's go to FH through
15	dispute information in columns EV through FP come from	15	FT. This is also disputes and it's also the sources
16	disputes which is here under source files. And at the	16	are the same, files marked by the color green. What's
17	beginning you said that involved Braintree, Stripe,	17	interesting, and I have been asked why this was set up
18	Amazon and Fiserv, because those were you payment	18	this way, is we understand that this portion of the
19	processors. So that	19	chart, which is FH to FT, columns FH to FT is a
20	MR. BLANCHARD: Objection.	20	standalone chart and does not correspond to the other
21	THE WITNESS: That's correct. You might be	21	parts of the chart. Why is that?
22	right. That is correct. It could be multiple	22	A. Two different companies presented in two
23	processors.	23	different ways.
24	BY MS. SCHAEFER:	24 25	Q. What companies are you referring to?  A. Processors. I don't know which file references
25	Q. But you don't know?	23	A. Frocessors. I don't know which the references
	572		574
1	A. I don't know.	1	which processor, but however they data dealt it to me,
2	Q. Now let's go back to look at, you know, these	2	that's how we presented it on here. One company could
3	three sort of categories we were looking at, which is	3	call it dispute lost or one company could call it lost
4	we have orange, we have green, and we have blue. And I	4	dispute. So I mean, it's just how they reference it.
5	might have misunderstood. What I thought you testified	5	Q. So are you saying that columns FH to FP, the
6	to was that all orange represented one payment	6	information there comes from a different payment
7	processor. All green represented another and the blue	7	processor?
8	represented another one. Is that incorrect?	8	A. This looks like it's coming from Stripe.
9	A. To keep it simple, I think it represents each	9	Actually, I can tell you if that's really important.
10	individual file. Now, a payment processor probably	10	I'm more than happy to see if I can figure it out if
11	gave me two files and that's how it's separated. But	11	you give me an order number on that one right there,
12	to keep it simple, it's represented by each individual	12	the first one.
13 14	file, the six files that you see in that folder.	13	Q. The very first? A. Yeah.
15	Q. So your testimony is that the orange columns are associated with one particular file?	14 15	A. 1 can. Q. Order, yes, it's 220476312.
16	A. I believe so, yes.	16	A. Yeah, I don't have that data in the back end as
17	Q. Okay. But then you would be there would be	17	to which processor it was. I just messaged the
18	information missing because	18	developer on the side.
19	A. Why is that?	19	Q. Wait, I'm sorry. I didn't hear what you said.
20	Q. Presumably here, and let me get to some other	20	A. I don't have that information on the back end
21	information there. But so if count lost is Zaappaaz	21	as to which processor it was, but I just messaged the
22	lost, you're saying that that's just coming from one	22	developer to see if he can find out what processor that
23	payment processor, but you probably lost with many	23	was. And you can pretty much assume that that is for
24	payment processors. Not just one. And then the next	24	that column that's that processor.
25	green is count won, which is what Zaappaaz won. But	25	Q. So I guess I'm talking about FH to FT. Are you
		1	

12/14/2021

575 577 is the only chart that has chargeback dispute 1 saying, again, that each color is a different 1 2 2 processor? information other than Paypal. And so that would 3 3 MR. BLANCHARD: Michelle, I think this is suggest that this is all coming -- all the information 4 something we need to go to the developer on as well, 4 we see in the dispute section is all coming from one 5 because if I understand, your question basically where 5 payment processor and not, you know --6 6 is, you know, that disputes (6) file, you want to know A. That's right, yeah. It could be that Stripe 7 7 was overlooked. I can extract that data as well pretty what the source of that is, whether that's all one 8 8 payment processor, multiple ones. That's basically 9 what you are asking, am I right? 9 Q. So I guess now I'm confused. Are you saying 10 MS. SCHAEFER: Correct. Why don't we do this, 10 this is Stripe or this is not Stripe? 11 we can bring up -- let's bring up the source sheet for 11 A. That is not Stripe. 12 that and maybe that will help before we do anything 12 Q. And so what is this we are looking at? Is it 13 else. Sorry, I'm trying to find the chart. 13 Braintree and Fiserv that we are looking at? 14 BY MS. SCHAEFER: 14 A. I think that is Stripe, actually, from the 15 Q. So this is Zaappaaz 0020589, and we will mark 15 dates of when it looks like. Give me a second. Yeah, it as Zaappaaz Exhibit 58. 16 16 that looks to me like Braintree, which is Fiserv. 17 (Zaappaaz Exhibit Number 58 was marked for 17 Q. Okay. So you were testifying that you believe 18 identification.) 18 that this comes from Braintree, and now if we go back 19 BY MS. SCHAEFER: 19 to the master chart, so where in these rows EV to FT 20 Q. Is this the underlying chart for the dispute 20 would that Braintree information be encompassed? Would 21 information? Is this the source? 21 it be EV to FG? 22 A. Yes. I think that's all coming from one 22 A. Everything that's green. 23 23 processor. Q. So now, so if it's Braintree, let's go back to 24 Q. And so you think -- what processor do you think 24 EV through FG. Does that change your testimony that 25 25 what we see EV to FG comes from Braintree records? 576 578 1 A. I think that's Fisery, I believe. And the 1 A. Correct, yes. 2 reasons it's broken down like that, just to give you 2 Q. And so going back to reason lost -- well, going clarity, if you look at column N, that's the only 3 back to EV count lost, that still reflects that 3 4 4 identifier that we have to cross-reference our orders. Zaappaaz lost; is that right? 5 5 We don't have any other identifier. That is our only A. Correct. 6 identifier to cross-reference our orders. What we did 6 Q. And would EX, reason lost, come from Braintree? 7 is we took that and cross-referenced it with order A. Correct. 8 8 details. So if there are e-mails matched, that's how Q. And EZ still represents instances where 9 9 we attach this to that order. Zaappaaz won the chargeback dispute? 10 Q. So you take the e-mails and you run it against 10 A. EZ, correct, yes. 11 11 Q. And then column FB, the reasons for the win are your order system? 12 A. No, we run it against our main -- the sheet 12 reasons provided by Braintree; is that right? 13 13 that we were looking at. A. That's correct. 14 Q. So you took your payment processor records 14 Q. So now if we go to FD through FG, is it the 15 and/or the records you got from your payment 15 same? Count closed, does that still mean that you processors, and the only way to figure out the 16 resolved this in some other fashion? 16 17 chargeback dispute information was to run those e-mails 17 A. Yes. 18 across the master chart, which I'm calling the main 18 Q. And reason closed, that comes from Braintree? 19 chart? 19 20 A. That's correct. 20 Q. Okay. So now let's look at FH to FP, which 21 Q. Okay. And this is all one payment processor? 21 like I said, is a standalone section of the 22 22 A. I would say so, yes. spreadsheet. 23 23 Q. Well, I will let you know that in terms of the A. Yeah. 24 underlying source information and the charts you have 24 Q. And so is this -- and let's look at, go to FJ. 25 provided, which I have gone through all of them, this 25 You see amount lost?

	579		581
1	A. Um-hum.	1	numbers on there, so he's taking like the whole extract
2	Q. What's that number represent, 346,424?	2	and just pasted it there. So I would assume that is
3	A. I think that's the total accumulation of FJ.	3	the first chargeback on the main reference sheet, if my
4	Q. The total accumulation okay. And let's go	4	guess is correct. Is that true?
5	to FN, which says amount won. What does that	5	Q. Let's see.
6	represent?	6	A. I think he probably just copied and pasted.
7	A. Same thing, total accumulation.	7	Yeah, so what he's done is copied and pasted this whole
8	Q. Are you saying that all the information here,	8	thing because we don't have an order number referenced.
9	FH through FT, is also from Stripe?	9	What he's doing is he's pasting all that data there and
10	A. From Braintree.	10	now he's telling the system look for evidence at new
11	Q. I'm sorry, from Braintree?	11	whatever, okay, and it's finding that order and
12	A. Correct. I think what he did is he just	12	basically superimposing it on the right side of
13	basically separated it and created columns based on	13	wherever that order is.
14	win, lost and closed. That's all he did.	14	Q. Okay. All right. I understand. But so is the
15	Q. Why would he separate it out like into a	15	same information in EY through FG? I know it's not in
16	separate spreadsheet?	16	the same order, but is it populated in both places?
17	MR. BLANCHARD: Objection. Form.	17	A. No. There's functions for what he's doing on
18	THE WITNESS: A separate spreadsheet, can you	18	the left side of the e-mail and on the right side of
19	drop the filter on EV and see what's in there?	19	the e-mail. On the left side of the e-mail, he's using
20	BY MS. SCHAEFER:	20	that as a reference to find the order. He's telling
21	Q. EV, yes.	21	the system, hey, I found an order for this that was on
22	A. Okay. I think I know what he's doing. If so,	22	the list, okay. I found the order. Now on the right
23	what he's doing here is he's finding an order that	23	side find that customer and superimpose the data.
24	matches, okay, and then he's marking it with a 1 or	24	Q. I see. So for purposes, if we were going to
25	whatever number it is. I think what he's doing, if	25	use this information to calculate injury, we would be
	580		582
1	that number one matches, he's created a formula to go	1	looking at FH to FQ?
2	to the next column, which is on the right side of the	2	MR. BLANCHARD: Objection to form.
3	e-mail.	3	BY MS. SCHAEFER:
4	Q. Wait. So we were at EV.	4	Q. Would we be looking at that?
5	A. Yeah. So he's trying to find if there's any	5	MR. BLANCHARD: Objection. Form.
6	orders that match that e-mail address. And if it does	6	THE WITNESS: I don't know how you calculate
7	match that, he marks it, he ticks it. It's a script he	7	injury, but that is that refund or chargeback should
8	probably wrote. He ticks it meaning that, hey, I	8	relate to that specific customer.
9	recognize the order and I am going to impose the data	9	BY MS. SCHAEFER:
10	on the right side of the e-mail, all that. It's the	10	Q. And my point is so are you saying that EV and
11	same replication on the right side. Keep going to the	11	FG, to a certain extent, is duplicative of FH to FT?
12	right. Right there. He superimposes all that data	12	MR. BLANCHARD: Objection. Form.
13	right there in the same format.	13	THE WITNESS: Yes.
14	Q. Okay. I'm sorry. You have to explain that to	14	BY MS. SCHAEFER:
15	me. I'm having a hard time understanding, like, how EV	15	Q. So where is the information related to Stripe?
16	to FG corresponds to FH to FT outside of all of it	16	A. I believe it's already been imposed into the
17	coming from Braintree.	17	master data file, but I would have to confirm that.
18 19	A. So if you go to EV again, the drop-down.  O. So this EV just so I'm clear right here is	18 19	I'm not sure.  Q. And I mean, there is no source file for it. So
20	Q. So this EV, just so I'm clear, right here is going to correspond to this order here, okay, but it's	20	I'm not sure that it is encompassed in this chart.
21	not going to correspond to this.	20	Would it be encompassed under refunds?
22	A. That is correct.	22	A. Possibly. We can provide the source file. No
23	Q. So that's what I'm wondering.	23	issues.
24	A. Yeah, so all he's doing is he is taking the	24	Q. And where is the info chargeback info
25	extract of that order, because we don't have order	25	related to Empire?
-	,		

12/14/2021

583 585 A. That is -- I think that is Empire. doing, he was cross-referencing them and eliminating 1 1 2 the ones that are duplicate on both ends so it's not Q. What is Empire? 2 3 3 A. That right there. Empire is -double data. So if there was a refund done on our 4 Q. What right where? 4 system and it's going to post it there, he did not take 5 A. What I'm seeing now. Braintree is Empire. 5 it from the data from the dispute section. Q. Okay. Walk me through that again. 6 Well, Braintree is not Empire. 6 7 Q. I don't think that's right. Braintree is not 7 A. Can I get a dispute that's yes, please, on FX? 8 Empire. Empire is the independent sales organization 8 Q. You want to pick one? A. I'll take the first one. So what this means is 9 or agent of Fisery. But those are two separate -- you 9 10 10 we have a tag on our back end called disputed, and we use Braintree to process payments and you also used 11 Fiserv. And Empire was, you know, a liaison? added this tag because we started to get a lot of 11 A. You got it right on the nail. Empire is an 12 12 fraudulent orders. So what we did was we took every 13 agent. Braintree is a gateway. Fiserv is the 13 time a dispute came from Stripe, it automatically added processor. Now, I mean, these are schematics. Those that tag to this customer's order, whatever the dispute 14 14 are terms. Fiserv is the one that processes. 15 15 was regardless, and it basically put a tag on it saying 16 Braintree is what connects to my website to process it was disputed. So if the customer placed the order 16 those transactions. So they are all interrelated in 17 17 again, we would know that was disputed previously so 18 18 before we processed the order, we want to make sure 19 Q. So your testimony is that Braintree 19 what we are looking at that it's not a fraudulent order 20 represents -- Exhibit 58 encompasses Braintree/Empire 20 again. So that's what the yes or no means on disputed. 21 data? 21 Q. Okay. 22 22 A. And it definitely means that it was disputed. 23 MR. BLANCHARD: I think, Michelle, we are happy 23 Q. So this -- go ahead. 24 24 to get on the phone and verify that. A. And that data is Stripe's data. I could give BY MS. SCHAEFER: 25 25 you the raw data if you need, but that data is -- all 584 586 1 those orders are being pulled from Stripe. 1 Q. I mean, if you are testifying that's what it 2 is, I'll take your word for it. So for Exhibit 58, it 2 Q. Okay. And so this is all Stripe data. And yes 3 looks like there's about 395 transactions. Does that 3 refers to the fact that it had been -- it was disputed? mean there were only 395 chargeback disputes? 4 4 A. Correct. 5 5 MR. BLANCHARD: Objection. Form. Q. And how do you know from here who won or lost, THE WITNESS: Probably just for that processor, 6 because we don't have that information? In other 6 7 7 yes. words, we are missing, you know, the Stripe 8 8 information. Or does this total somehow reflect BY MS. SCHAEFER: 9 9 O. Now let's look at FV to GA. And tell me what chargebacks? 10 information is here. So we have FV is the column, and 10 A. Either it reflects chargebacks, but I can get that's the order ID. And that speaks for itself. Then 11 the raw data and I cannot answer that. I would assume 11 12 we have FW, which says total. What is the total? 12 it's only data that's refunded back to the customer. 13 But again, I don't know. I can get you the raw data on 13 A. (Reviewing document.) 14 14 O. I'm sorry, did you answer? that. 15 A. Total refers to the total amount of the orders 15 O. Okav. 16 MR. BLANCHARD: I think we actually produced 16 charged. Q. And what does disputed mean? 17 that, Michelle. 17 18 18 A. If it was ever disputed. MS. SCHAEFER: Yeah, I'm going to pull it up. 19 Q. And does it dispute a chargeback dispute? 19 BY MS. SCHAEFER: 20 A. Correct. 20 Q. You produced the underlying chart. So I 21 Q. And how does this information, FV-GA, line up 21 thought that FW was the same as column U, which is just 22 like total amount paid by consumer. But is that not 22 to the previous dispute information? 23 A. So remember I told you that there's some manual 23 the case? 24 processes that are done; there's some processes that 24 A. Say that again. 25 are overlooked and not done. So I think what he was 25 Q. So here we have column U. And that comes from

	11 , ,		
	587		589
1	your back end, and that's, you know, the amount of	1	first I was asking about Paypal. So the total was
2	money for the order. And so then we go all the way	2	GH is the total of chargebacks? Is it the total, GH?
3	here and then we have FW. So I think I'm wrong in my	3	A. I'm checking. I don't know how you are getting
4	assumption that those are the same based on what you	4	that, how it's calculating.
5	said; is that right? My question is, are column U	5	Q. I don't know. I just see it.
6	total and column FW total different?	6	A. Are you filtering something?
7	A. Could be.	7	Q. I think I might have. Hang on. I did. Sorry.
8	Q. And why would they be different?	8	MR. BLANCHARD: I think you are just not seeing
9	A. Maybe they received 500 gloves versus 600	9	any yet.
10	gloves or maybe something was damaged and they only	10	BY MS. SCHAEFER:
11	disputed a portion amount, but it could be different.	11	Q. So what does this total represent?
12	Most likely they dispute the whole amount and then it	12	A. I think that's the total refund, 282 refunds
13	gets adjusted, but it can be different.	13	were done on Paypal during that time period, and that
14	Q. But the amount in total column FW is the amount	14	was the total amount for that.
15	of money at issue in Stripe disputes; is that right?	15	Q. Okay. We can take a break in a second. I just
16	A. I believe so, yes.	16	want to see if I want to ask questions about do you
17	Q. So let's go to that underlying chart. So this	17	see this screen?
18	is Zaappaaz 0020592. And I'm marking it as Zaappaaz	18	A. I do.
19	Exhibit 59.	19	Q. So this is Zaappaaz 0020594. And we'll mark it
20	(Zaappaaz Exhibit Number 59 was marked for	20 21	as Zaappaaz Exhibit 59.
21	identification.)	22	(Zaappaaz Exhibit Number 60 was marked for identification.)
22 23	BY MS. SCHAEFER:	23	MS. COLLESANO: Michelle, did you mark the
23 24	Q. It looks like just the same exact information.  Is it the same exact information as	24	previous one as 59 or are you not using it?
25	A. I think so, yeah.	25	MS. SCHAEFER: I'm sorry, no, did I mark the
23	A. Tunik so, yean.	25	His. Sell Isl Sit. Thi soily, no, and I main the
	588		590
1	Q. Okay. You said that you could get us, you	1	previous one as 59? I'm using whatever I have marked
2	know, the outcome of the dispute, who won, who lost,	2	already. So am I on 60, Anne?
3	what was closed.	3	MS. COLLESANO: I think it's 60.
4	A. I think it was provided already, but, yes, we	4	MS. SCHAEFER: So I'm going to remark this as
5	can get it if you don't have it.	5	Exhibit 60. Thank you, Anne.
6	Q. When was it provided? If you can identify the	6	BY MS. SCHAEFER:
7	document, that's fine.	7	Q. So for transaction date, these are transactions
8	MR. BLANCHARD: Michelle, this spreadsheet	8	in 2019 and in January and February of 2020, and I have
9	tells you whether it was won or lost.	9	isolated them because I thought that you started
10	MS. SCHAEFER: Whether it was what?	10	selling PPE, covered products, in March. And so I'm
11	MR. BLANCHARD: Won or lost.	11	wondering why these orders would be here?
12	MS. SCHAEFER: No, it doesn't. Based on his	12	A. It doesn't have an order number?
13	testimony it doesn't because his testimony was the	13	Q. Is transaction invoice ID the order number?
14	green dispute all comes from Braintree and Fiserv.	14	A. Your question is, it's out of the date range?
15	Although I'm still not sure about that. And that he	15	Is that what you are asking?
16	testified that those other columns, FV to GA, come from	16	Q. So we deposed you in August, and your testimony
17 18	Stripe. So it's not here, based on his testimony.	17 18	was that you started selling covered products in March.
18 19	MR. BLANCHARD: I understand. BY MS. SCHAEFER:	19	So here we are with chargeback disputes related to your sale of your covered products, but the transaction
20	Q. Let's go to source. So now let's look at	20	dates are in January and February of 2020, which was

17	BY MS. SCHAEFER:	17	believe so, yeah. They are my orders, most of them.
18	Q. Do you know the differences between these	18	Most of them, actually. Yeah, if you scroll down,
19	categories?	19	yeah, most of them I can pull them up.
20	A. No. I mean, I think 99 percent of the time we	20	BY MS. SCHAEFER:
21	used our own packaging.	21	Q. And they gave how are you able to figure out
22	Q. Your own packaging?	22	what customers you needed information about? Does that
23	A. Correct.	23	come from your database?
24	Q. Would that be customer packaging?	24	A. I don't understand your question.
25	A. I believe so.	25	Q. How did you know what customers to seek
	596		598
1	Q. Your, did I mark this? I'm not sure I marked	1	tracking information about? In other words, how did
2	this. I'm going to mark this, Zaappaaz 0020593, I'm	2	you what did you do to go about generating this
3	going to mark it as Zaappaaz 61.	3	particular spreadsheet?
4	(Zaappaaz Exhibit Number 61 was marked for	4	A. They basically gave me a list of their
5	identification.)	5	customers, my customers, everybody's customers.
6	MS. SCHAEFER: I'm sorry, can I take a	6	Q. What do you mean by everybody's customers?
7	one-minute break.	7	A. The vendors' customers.
8	MR. BLANCHARD: Yes, of course.	8	Q. That weren't your customers? I guess I'm
9	(Pause in the proceedings.)	9	getting confused here. So they have a database that
10	BY MS. SCHAEFER:	10	contains all information related to shipments. Do you
11	Q. Now I've pulled up Zaappaaz 00020591 that I'll	11	generally have access to their information?
12	mark as Exhibit 62.	12	A. I do not have access to their FedEx account,
13 14	(Zaappaaz Exhibit Number 62 was marked for	13 14	10.  O So you asked for cortain information?
15	identification.) BY MS. SCHAEFER:	15	<ul><li>Q. So you asked for certain information?</li><li>A. I asked for all orders shipped from March all</li></ul>
16	Q. And so I can tell you that this account is	16	the way to December. I just told them to extract it
17	related to GZ Hishuang E-business Company Limited that	17	and send it to me. I don't think there's a way for
18	we spoke about earlier. And what I'm wondering is why	18	them to extract just my orders.
19	doesn't this spreadsheet contain the same detail that	19	Q. Walk me through that one time again. I got
20	Zaappaaz Exhibit 61 does?	20	confused at the end of that. So you contacted them and
21	MR. BLANCHARD: Objection. Form.	21	you said, give me what did you ask for them to give
22	THE WITNESS: Maybe you didn't select all	22	you?
23	fields. We provided all the fields that we had	23	A. I told them from the FedEx account from March
24	available on our sheet, and they provided whatever they	24	all the way to December, extract all the shippings you
25	provided.	25	did and send it over to me.

	599		601
1	Q. And then you took that list and then how did	1	order numbers reference to us, but what is in reference
2	vou	2	to us, we extracted that and superimposed it to the
3	A. Cross-referenced it with the order numbers. If	3	master sheet.
4	the order numbers matched my order numbers, I took that	4	Q. What did you say, you said something to the
5	tracking number.	5	extent it matched? I didn't quite catch it. Something
6	Q. Okay. And for the FedEx chart that we looked	6	about him not sending all of it? I didn't quite catch
7	at before, how did you go in and pull that information?	7	it, so I'm not sure what you said.
8	A. Just my account, is that the one you are	8	A. Yes. You understand this is not our UPS
9	referring to?	9	account, correct?
10	Q. Yes.	10	Q. Correct.
11	A. FedEx.com.	11	A. So they are shipping other customers goods as
12	Q. Yes.	12	well. You understand that?
13	A. That's my answer, FedEx.com.	13	Q. Um-hum.
14	Q. So you went into your account, and how do you	14	A. So what I'm trying to say is they gave me a
15	pull the information from there?	15	whole data dump of their account. So you are going to
16	A. You go to reports and you just select a date	16	see our orders as well as their other customers' orders
17	range and select.	17	as well. So for us to reference it, what we did is I
18	Q. And do you search by tracking number?	18	believe we took the tracking number and matched it with
19	A. No.	19	our tracking number and took that data from there.
20	MR. BLANCHARD: Objection. Form.	20	Q. So it was different than what you did with the
21	THE WITNESS: Search by date.	21	FedEx account information from Chandler Liu?
22	BY MS. SCHAEFER:	22	A. Same thing. We did the same thing. I think
23	Q. Search by date?	23	they could have even I think the order number would
24	A. Date range. So March 2020 all the way to	24	have been easier to pull.
25	December 2020, and it just gives me a data dump.	25	Q. I thought you used order number for the FedEx,
	600		602
1	Q. So this is Zaappaaz 0020590. And this is for	1	Chandler's FedEx information?
2	the My Speed Limited account. So tell me how you	2	A. I don't know what they used, Michelle. I'm
3	obtained this information.	3	just saying maybe they used order number or the
4	A. Same exact way the one before this.	4	tracking number. If you asked me, I would probably use
5	Q. Okay. So this is we'll mark this as	5	the order number to cross-reference it. But it doesn't
6	Zaappaaz 63.	6	matter what you use, it comes out to the same thing.
7	(Zaappaaz Exhibit Number 63 was marked for	7	Q. Are you saying this spreadsheet includes orders
8	identification.)	8	that don't come from you?
9	(A recess was taken.)	9	A. Again, this is not my account. So, yes, there
10	BY MS. SCHAEFER:	10	are customers that they do ship for. So, yes, it would
11	Q. So I found the chart I was looking for, and	11	include orders that's not for me as well.
12	this is Zaappaaz 0020595. And I wanted to ask, is this	12	Q. And is that the case also for Chandler's FedEx

21	MR. BLANCHARD: Objection. Misstates the	21	complaints of people getting COVID, people are dying,
22	evidence.	22	things like that. I think that's what she's referring
23	THE WITNESS: I'm the owner of both companies.	23	to.
24	So I mean, for credit references, for our vendors, they	24	BY MS. SCHAEFER:
25	use Ionized. If we have a credit reference under	25	Q. And by this point, were you delivering orders

623 625 1 late? I mean, by this time, weren't you having major 1 MR. BLANCHARD: Objection. Calls for 2 2 shipping problems? speculation. 3 A. Up and down. 3 THE WITNESS: I think she's referring to a PO 4 Q. And were a flood of consumers complaining? 4 that Sherez was helping to clear the goods or 5 5 something. I think it's the next line she was A. Flood, no. But, yes, we had consumers 6 6 referring to the purchase order for Konik. complaining. 7 7 Q. And then she asks, "U mean we take payment in Q. Let's go to 2:15:36, and Eroze says, "Can we be 8 8 honest to customers that we will ship from Tuesday or WB bank transfer and let Ionized ship order?" 9 Wednesday." Why is he asking this? 9 A. Correct. 10 10 O. So would Ionized -- well, would Ionized fulfill MR. BLANCHARD: Objection. Calls for 11 speculation. Lack of foundation. 11 orders for WB? THE WITNESS: We are probably 17 days into A. No. Ionized had the goods. So we took the 12 12 13 this. Our CSRs are new. We have hired new CSRs. The 13 payment, because this was our customer, and we gave the 14 communication is probably not being relayed down, but, 14 funds to Ionized. yes, he's asking what should be the proper protocol. 15 15 Q. So the time stamp 6:05:49 Fatima is talking 16 And that's what he's asking. 16 about an order, "This one we already processed in 17 BY MS. SCHAEFER: 17 wristband and cust paid. Can we add in ship easy." 18 Q. So then down at 9:08:58 you say, "Connect me 18 Why would she be asking if she could add this to Ship 19 with who has thermometer." Why did you want to be 19 Easy? 20 connected with -- what were you asking? 20 A. So that we could ship the order. 21 A. I was asking him to connect me with who has 21 Q. Why was she asking you? Wouldn't she just 22 automatically add it in Ship Easy? thermometers. 22 23 Q. Were you looking for suppliers? 23 MR. BLANCHARD: Objection. Calls for 24 A. We were always looking for suppliers. 24 speculation. 25 O. Why were you always looking for suppliers? 25 THE WITNESS: No, she wouldn't automatically 626 624 1 A. It's what a businessman does, always prepares 1 add such a big order to Ship Easy. This requires 2 2 logistics. for the future. 3 BY MS. SCHAEFER: 3 Q. But was one of the reasons you were always 4 looking for suppliers because you always needed 4 Q. So tell me about those logistics that it would 5 5 inventory? require. 6 6 A. We, to date, we still look for wristband A. This probably required a truckload. 7 7 suppliers. So we are always wanting to have multiple O. Okay. And so why would that affect her ability 8 8 to just enter it without asking you? suppliers on hand. 9 9 O. But starting in March, during the pandemic and A. Because this is not a package you can put in a 10 thereafter, at least through August, were you always 10 box and print a label and put it on. You have to call searching -- were you searching for suppliers at times 11 the logistics to come in and arrange to pick it up. So 11 12 because you didn't have enough inventory to fulfill the 12 a separate person would handle that. 13 orders that were coming in? 13 Q. So would those orders not go through in Ship 14 A. Not inventory to fulfill. We were always 14 Easy? 15 looking for additional suppliers. 15 A. They do. That's what she saw under the O. So then at stamp 11:13:10 Fatima says, "Paypal category of FedEx Freight, I believe. 16 16 balance is \$323,221. It has not allowed me to transfer 17 17 Q. Okay. So are you saying that orders that fall 18 and always shows error." I want to know why Paypal 18 under FedEx Freight don't go in Ship Easy? 19 wasn't allowing her to transfer. Was there an issue 19 A. They do go in Ship Easy. They just get 20 with Paypal? 20 processed a little differently. 21 21 Q. I see. How do they get processed differently? A. I don't think we had issues with Paypal, no. 22 Q. And then 7:42:06, she says, "Those e-mails are 22 A. We have to call a carrier to come pick up the 23 23 cc Sharez too" so I think they are for Ionized. Yeah, goods. It's not something that we can put into a 24 don't worry about that. What was she referring to in 24 regular FedEx trailer. 25 25 the context of Yaoli? Q. And would she also ask whether they could add

631 633 everything was shipped to the customers directly. 1 weren't being answered properly, chats were being 1 2 2 BY MS. SCHAEFER: clogged. So I can understand the customer's assessment 3 of this, but that's what it is. A lot of chargebacks 3 Q. Okay. Eroze says, "Today Shairoz also called 4 were reversed when the goods were delivered. 4 to discuss on chargebacks and was asking me why we Q. Below she says, "We have many orders due and I 5 getting so many." Who is Shairoz? 5 6 have no tracking or chargebacks to give." Why wouldn't A. Empire tech. 6 she have tracking for orders that were due? 7 7 Q. Let's go to the next page, and there you say at 8 MR. BLANCHARD: Objection. Misstates the 8 5:26:21, "No gowns and no thermometers." What does 9 9 that mean, that you had no gowns and thermometers in evidence. 10 THE WITNESS: She's saying she does not have 10 stock? MR. BLANCHARD: We can't hear you. 11 tracking to reply. 11 12 BY MS. SCHAEFER: 12 BY MS. SCHAEFER: 13 Q. Why didn't she have tracking for orders that 13 Q. You say no gowns and no thermometers. What 14 had been placed? 14 does that mean? Does that mean you don't have those in A. Where does she say that? 15 stock and you couldn't fulfill those orders? 15 16 Q. She says, "We have many orders do and I have no 16 MR. BLANCHARD: Objection. Form. 17 tracking." 17 THE WITNESS: We had no gowns and no 18 18 A. She does not have tracking? thermometers in the warehouse. MR. BLANCHARD: Hold on. That's not the whole 19 19 BY MS. SCHAEFER: 20 20 Q. Okay. And then on 5:26, anything besides that, sentence. 21 21 do you have any urgent orders? What constitutes an BY MS. SCHAEFER: 22 Q. "I have no tracking on chargebacks to give." I 22 urgent order? 23 think that's an "or". 23 A. I don't know what I was referring to on that 24 A. She does not have tracking on chargebacks to 24 point. 25 25 Q. And then she says "Many in sheet." Do you know give. 632 634 1 1 Q. But is tracking a shipment tracking? what sheet she's referring to? 2 A. Correct. 2 A. I think we prioritized hospitals and based on 3 local laws to push medical and essential workers ahead 3 Q. And did she not have tracking because you 4 didn't have inventory to fulfill those orders at the on orders, so that's what we did. 4 5 Q. Then she says, "As simple as masks, face 5 point and so --6 shields, KN95 at least we can move those out to reduce 6 MR. BLANCHARD: Objection. 7 7 BY MS. SCHAEFER: losing on those simple disputes." So doesn't that mean 8 8 that you were shipping products out to people to win Q. -- shipments hasn't been created? 9 9 A. No. So -the chargeback disputes even though they wanted to MR. BLANCHARD: Objection, form; objection, 10 10 cancel their orders? argumentive; objection, asked and answered. Calls for 11 A. I just want to clarify that. We just responded 11 12 12 speculation. to disputes. 13 13 Go ahead. Q. Why would you ship an order to someone that's 14 THE WITNESS: Let's bring up a scenario here. 14 created a dispute? This is when China had stopped from shipping PPE 15 15 A. Because the customer has not received the directly to consumers. So we shifted everything and tracking number. That's why. 16 16 started shipping everything to our warehouse. That is Q. I don't understand. I'm saying, why would you 17 17 where the clog happened, and this is where the 18 18 ship an order to someone that is asking for a 19 chargebacks log is starting to pile up. So just want 19 chargeback? Obviously they don't want the product 20 to kind of give you that reference. So now everything 20 anymore. 21 is coming to our warehouse causing further delay and 21 A. It's not obvious. A chargeback can be for a now being shipped from our warehouse to the customers. 22 simple reason that they didn't receive their tracking 22 23 number on time or they saw a review online that they 23 So we are waiting for the goods to arrive at our 24 warehouse as we adjusted to the new Chinese laws that 24 didn't feel comfortable with. We didn't answer our 25 were just updated around this period. Before this, 25 phones and they thought we were a phony company. So it

643 645 A. That means we weren't getting good clarity from 1 that's what I did. And I was taking responsibility of 1 2 2 FedEx nor Chinese customs as to what was happening those orders specifically. 3 BY MS. SCHAEFER: 3 because I guess everybody was adjusting on the fly. So 4 Q. And then at 10:28:07 Eroze says, "We need to 4 we said just ship out 10 orders and let's see what 5 purchase from India only as nothing is coming from 5 happens before we shift our strategy. China, no aircraft." What does that mean? 6 Q. Let's go to 12:11:08. And you might have to 6 7 7 read above, but you say, "yes but only push that have A. I think Eroze is out of his league here in 8 terms of understanding what's happening. He never 8 with other products." 9 understood the logistics. He was only responsible as a 9 A. What page? CSR, but it's just a characteristic to be. 10 10 Q. On the same page, 33. Q. Then 10:31:56 you say, "I will do analysis on 11 11 A. Okay. Adwords and see what it looks like." What's an 12 12 Q. But you probably have to read above for 13 analysis on Adwords? 13 context. So starting at 12:00. 14 A. 10 what? 14 A. This was probably strategic reasoning as to 15 O. 10:31:56. 15 pushing products. We had all the goods in stock, so we A. I don't know what he's referring to here. 16 16 were trying to get all the complicated orders out 17 O. This is you saving it. 17 before going with the easy orders. Just a strategy. 18 A. I don't know what he's referring to in the Q. Page 36. Now let's go to 4:09:51, "ESP was 18 19 previous context when I responded to him. That's what done but changes should reflect by morning hopefully." 19 20 20 And I'm just wondering what ESP is? 21 Q. What is an analysis on Adwords generally? 21 A. ESP is a platform on ASI. It's like their 22 A. A standard analysis on Adwords would be like if 22 23 we want to sell a water bottle, I check what the cost 23 Q. It's a platform on ASI like their Google? 24 of keywords are. The cost of keywords is \$0.10, a 24 A. Yeah. 25 bottle is a dollar, and it's going to take me five 25 Q. So can you explain that further? 644 646 1 A. Yeah, it's a platform where you post products 1 clicks to sell a product, then it's going to cost me 2 \$0.50 and this bottle cost me \$0.30, so that's almost 2 and suppliers, and distributors can purchase from you. 3 80 -- I'm sorry, \$0.70, and I have \$0.30 to use as 3 Q. So did you have -- you posted advertisements on profit and management and overhead. It's just an 4 ESP? 4 analysis to see if it's profitable. 5 5 MR. BLANCHARD: Objection. Misstates prior Q. An analysis to see if the ad -- analysis to see 6 6 testimony. 7 7 if the ad is profitable or results in profitability? THE WITNESS: We did. 8 A. Yes, an ad results in profitability. 8 BY MS. SCHAEFER: 9 9 O. Okay. Page 32, 9:34:32, can we start shipping O. You did? 10 face shields -- I'm sorry, Fatima says, "Can we start 10 A. We have been with ESP for ten-plus years. 11 shipping face shields and cloth masks from vendors 11 Q. So you use that platform to advertise to ASI 12 directly from China to customer address as per orders?" 12 members? 13 What does that mean, "as per orders" within the context 13 A. That's correct. 14 of what she's saying? 14 Q. Do ASI members get your advertisement other MR. BLANCHARD: Objection. Calls for 15 15 16 16 A. Other ways, what do you mean? speculation. THE WITNESS: Maybe there was a rule change in Q. I guess, are there other channels in which you 17 17 China where you could ship directly face shields and 18 18 target ASI members? 19 masks of -- cloth masks. Face masks were not allowed 19 A. We don't target any other way except for 20 at this time still, but there was a lot of flip-flop in 20 through ASI platform. 21 rules to start shipping those products from China. 21 Q. Page 37, why would there be no same-day 22 BY MS. SCHAEFER: 22 shipping for these goggles, gowns, gloves, cloth masks, 23 Q. Page 33, you say at the very top, "Try 10 23 bandana, social distancing footprints? orders and see if clears customs." What does that 24 24 A. Because we had orders we were still fulfilling, 25 25 and we didn't anticipate for the rush of orders that we mean?

649 647 could fulfill, so we didn't offer same-day shipping for wristbands it's showing total 14 times." 1 1 2 2 A. Sure. those products. 3 3 Q. Down at 10:45:27, Fatima says, "That number for Q. What does keyword wristband mean? 4 ASI to give is only for PPE products, right?" What is 4 A. Just like us typing in Wristbands into Google 5 5 a number for ASI? and seeing how many times your website shows up, that's 6 A. I don't know what she's referring to. how many times our website shows up in ESP. 6 7 7 Q. Then below, it says 11:18:22, What if customer Q. Okay. Can you run the same kind of reports on 8 calls us now? How do we know status or do we just give 8 ESP that you run on Google? 9 9 the number you gave? A. No, we cannot. 10 A. She's referring to a separate number I created 10 Q. Are you able to run any reports to see if your for ASI customers because our back end does not -- when 11 11 ads are creating, you know, optimization? 12 we upload ASI, ASI is -- 99 percent of the time will 12 A. We pay like a flat fee -- not a flat fee, but 13 send you a purchase order. So uploading a purchase 13 it's about \$30,000 a month. 14 14 Q. 30,000? order is a different process on our back end. So just 15 to separate those customers, we had a different number 15 A. Yeah. We don't track sales versus output. 16 where ASI calls, we know they are ASI customers and how It's just like, yeah, there's no metric to track what 16 17 17 we reference them. are the outputs. 18 Q. And 11:18:56 you say, "All ASI call also going 18 Q. So I have seen WhatsApp transcripts between you to Ionized for now." What does that mean? 19 19 and I guess a handle called FedEx Latin. Do you know 20 A. I think we had Ionized team handle our calls as 20 what that would refer to, FedEx Latin? 21 21 we were trying to find more manpower. So we took some A. It's probably a FedEx representative maybe. I 22 of Ionized's team to handle our operations for ASI 22 name my people really weird. 23 23 customers only. Q. So do you name -- you create the name on 24 O. And would they be compensated for this? 24 WhatsApp for them? 25 A. They were compensated for it, yes. 25 A. Yeah, by default either you use their name or 650 648 Q. If you go to page 98, and go to 1:46:00 and you 1 1 we adjust it. 2 can just read down to the bottom and tell me when you 2 Q. And so I was going to ask the same thing, I 3 have seen WhatsApp between you and Malaysia FedEx. 3 are done. 4 4 A. Okay. A. I just adjust the name so I know who I'm 5 5 Q. So let's start at 1:46. And she says, "Those talking to. 6 6 same products are on WB a well and we follow those." Q. Is the next Zaappaaz 67? 7 7 Do you know what she's talking about? (Zaappaaz Exhibit Number 67 was marked for 8 8 A. Yeah, WB is just the trade name on ASI. identification.) 9 9 O. So WB refers to ASI? BY MS. SCHAEFER: 10 A. Correct. WB Promotion. 10 Q. So I have just marked Zaappaaz 67. This is a Q. Is that your company on ASI? 11 WhatsApp transcript between you and Khalil. So go to 11 12 A. Yeah, my company. Zaappaaz owns that company, 12 page 12, and I'm looking at 12:03:30, "If they want to 13 13 yes. It's Zaappaaz's. It's like Wristbands. cancel an order before refund make sure we cannot do it Q. And then you say, "Check ESP again on ASI and 14 14 but if we can do it just release it before we issue a see how people doing." What does that mean? 15 15 refund." What did you mean by this? A. Just looking at the market scope. That's it. 16 16 A. I'm not sure exactly what this means. I think 17 Q. Are you wanting to see how competitors are 17 it means to release it means to remove it from Shipping 18 doing? 18 Easy. They want to cancel an order before refund, 19 A. Yeah, correct. 19 before a refund, make sure we cannot do it, I'm not 20 Q. And is that just a matter of looking at their 20 sure. 21 21 Q. And then, I mean, I'm going to ask about that 22 A. It's just like going to Google and typing in 22 statement in 12:05 where he says, Yeah I told team they 23 23 gel sanitizers and seeing who is advertising and what need to let me know before refunding because I have to 24 they are selling it at. 24 make sure it's marked as shipped, removed from Ship Q. So then at 12:14 [sic] you say, "With keyword 25 25 Easy or the label is thrown away and a note is added in

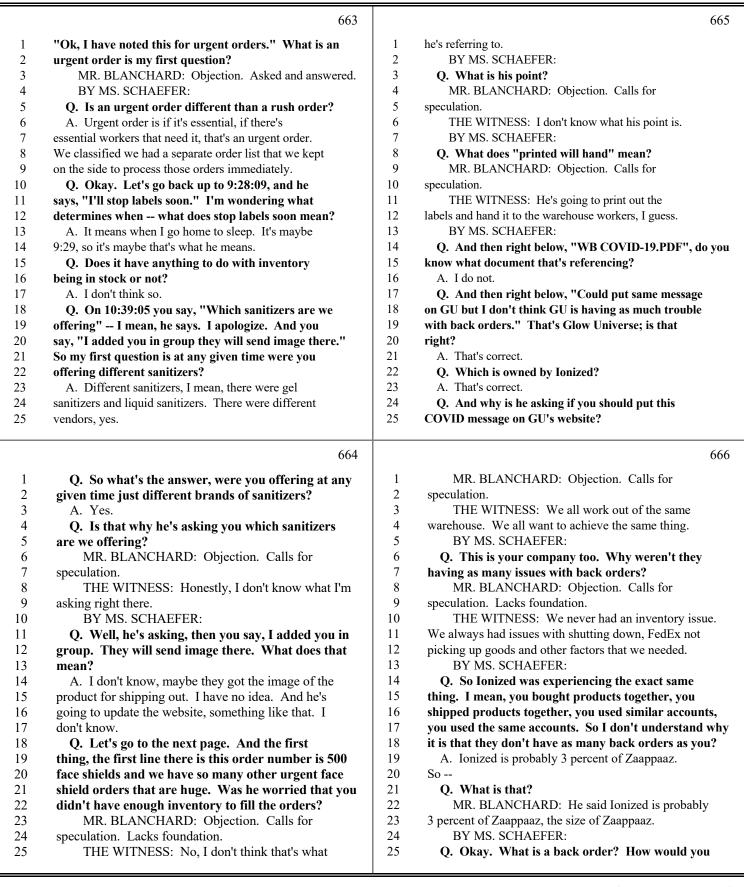

651 653 1 Ship Easy. 1 A. Yeah, automatic orders being pushed to China. 2 2 Q. So then down at 8:58:39 he says, I might remove A. Yeah, I think that's what it really means is 3 3 make sure it's released. So what happens is once it March 30th to prevent people from unsubscribing. Do 4 comes in our back end and we send to it Shipping Easy, 4 you know what the implication of March 30th is? 5 5 one Shipping Easy is sent, it's not reversible and we A. That's something you probably have to ask 6 cannot cancel it from Shipping Easy through an Khalil. I don't know. 6 7 7 automation process. So if we cancel it in our back Q. Let's go to page 3. 8 end, we need to go in manually in Shipping Easy and 8 A. He was referring to not sending out multiple 9 cancel it in Shipping Easy. So what I'm trying to tell 9 e-mails frequently. I think that's what he's referring 10 Khalil here is release the order on Shipping Easy 10 to, but I'm not sure. before you issue a refund. So meaning cancel Shipping 11 11 Q. Let's go to 12:53:54, and you say, "Khalil may 12 Easy so the warehouse does not ship it out, number one, 12 be best to put order number R." And then below, "that 13 and then go into our back end and cancel it. Because 13 means it's overnight when you upload." Then he says, 14 we had instances where people were cancelling the order 14 "Okay so R in front of the order number equals but they weren't cancelling our Shipping Easy, so it 15 overnight?" And then he goes, "No, R equals ground?" 15 16 was being shipped out regardless. But, yeah, I think 16 And then you say yes, and then you give this example 17 that's the clarification to that. 17 order number for overnight. So what does R mean? 18 18 Q. Okay. Let's go back to page 2. Let's go to A. We are doing this manually, when our team was 19 the top where he says, "Every single active chat is 19 uploading this on Shipping Easy manually, there was no 20 about masks." Were these chats related to complaints? 20 easy way to define if it needed to be overnight shipped 21 21 or if it needed to be shipped by ground. So if there A. It doesn't say that. 22 was an overnight order that our warehouse team needed Q. What about the sentence below, "A lot of 22 23 23 complaints or here and there", what were the complaints to ship, they were putting a letter after it, I 24 about? 24 believe. Maybe it was R. I don't know why I said no R 25 25 means like if you don't put an R after the dash, it MR. BLANCHARD: Objection. Form. 652 654 THE WITNESS: I have no idea. 1 1 means you just shipped standard. We did this for --2 BY MS. SCHAEFER: 2 while we were uploading manually. So if it was a rush 3 Q. And the next sentence, "Work on setting up 3 order and a customer paid for overnight, we put an R on the order and we shipped it overnight. That's what it API", what does that mean? 4 4 5 5 A. The automation process to push orders automatically rather than manually. 6 6 Q. Okay. 1:25:34 you say, "Get Diran to push for 7 7 Q. And then he says, "Most customers are PLA ads I don't see any." What are PLA ads? 8 8 interested. I'm trying to stay on them & helping CSRs A. Product listing ads. So if you type in 9 9 know how to respond." Most customers are interested in wristbands and you see the product images on the 10 what? 10 right-hand side, that's product listing ads on Google. 11 A. Products. 11 Q. And Diran would create these ads for you? 12 12 Q. What does it mean that he says I'm trying to A. Correct. 13 13 Q. And then I'm looking at 1:28:36, he's saying stay on them? 14 MR. BLANCHARD: Objection. Calls for 14 seven orders of 312 face shields in Ship Easy. What speculation. 15 15 does that mean? 16 THE WITNESS: I mean, he's trying to relay the A. That's how many orders of face shields are in 16 17 right message. It's the start of selling PPE products. 17 Ship Easy. 18 It's a new product, so he's trying to create standards 18 Q. And does that mean -- well, the next line is 19 and procedures on how to respond to these customers. I 19 13,000 face shields in the office printed labels. Is 20 guess CSRs are pretty much blinded, and we are trying 20 there a distinction between when they are printed 21 to work as aggressively as possible. 21 labels or not printed labels? 22 BY MS. SCHAEFER: 22 A. No, I think it's just if there was a larger 23 Q. And then below it says, "That will be easy to 23 order that needed to be processed a separate way, 24 manage so it goes straight to China." What does that 24 that's why it just needed to be packaged differently. 25 25 1300 face shields needed a different way of packaging mean?

12/14/2021

655 657 MR. BLANCHARD: Objection. Asked and answered. 1 them. That's a lot of boxes. 1 2 2 THE WITNESS: For example, we do not want to Q. Let's go to the next page, page 4. And let's 3 start at 5:36:55 and Khalil says, "Ads increase after 3 advertise gloves, let's say we don't advertise the 4 hitting budget." What does that mean? 4 keyword gloves because that's really broad. We only 5 sell nitro gloves. We don't sell latex gloves. We 5 A. Budget on Google Ads. We have a threshold of how much Google can spend. 6 don't sell vinyl gloves. If we are not going to be 6 7 7 Q. You have a threshold on how much you can spend selling those gloves, we don't want people to click on 8 on Google or --8 our ads if we're not going to be selling those gloves 9 9 because we are going to be wasting money. What we A. Sure. Yeah. 10 Q. And what does it mean, though, that after you 10 would mean by optimizing is I would advertise the word hit budget ads increase? Why would ads increase after "nitro gloves" rather than the word "gloves." Just an 11 11 12 vou hit budget? 12 example of optimization. 13 A. I'm sorry? What is your question? 13 BY MS. SCHAEFER: Q. So I just don't understand what the phrase "ads 14 Q. So at 8:45:01, Khalil says, "I think should 14 increase after hitting budget" means? 15 give PPE e-mails a small break. April 6, 7, 9, 10, 15 16 A. Yeah, should we increase ad dollars on our 16 Easter promo related." Do you know why he would want 17 budget? So if we have a budget of \$5,000, do you want 17 to give a small break of e-mails? 18 MR. BLANCHARD: Objection. Calls for 18 to increase it to \$10,000? 19 19 Q. Okay, so he's asking? speculation. 20 A. Yeah, he's asking. 20 THE WITNESS: It's just e-commerce standard 21 Q. Got it. Are these products that are mentioned 21 strategies. You don't want to bombard customers with 22 here sort of on the top one-third of the page, mask, 22 constant e-mails as they'll start unsubscribing. So 23 23 KN95, face shield, thermometer, gown, gloves, goggles, just the right spectrum, right number of e-mails to 24 were those the only covered products you were selling 24 keep them engaged and keep them intact rather than 25 at that time? 25 spamming them. 656 658 1 BY MS. Ionized would buy that from Zaappaaz at \$0.20 rather than having to do I mean, we are all I'm a common owner in all companies. So it doesn't make sense for me to order 50,000 under one bill of lading and another 50,000 under another bill of lading. It's just to make life simple to just order under one company and then just allocate it.  Q. What about the costs for the cost of labor, which is 37?  A. That was split at some point, correct.  Q. Because you all share the warehouse?  A. Yeah.  Q. So I get this additional info tab, and what	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	related to your packaging?  A. They did.  Q. When did they contact you?  A. I don't know.  Q. Why did they contact you?  A. There was a leak of sanitizers going to Alaska, I think, on a plane. That was why.  Q. And what was the what happened? What did they say when they contacted you? What resulted from that contact?  A. They needed I guess anything I don't know how FAA works, but anything that leaks or there's an issue related to air space, they need to investigate it. So this was something that leaked on a plane and they needed to investigate it. And then they basically said that you need to package your goods in a certain way, and we needed to get a certificate of packaging which the FAA guy gave us a contact who could get us certified. And we got someone in our warehouse certified, and that was the end of it.  Q. Did someone from FedEx ever come to your facilities to teach you to how to pack?  A. Yes.  Q. When did that happen?

Then I'm looking at row 31. That doesn't seem to be broken down by company. It seems to be broken down by product.  A. Yeah, so for example, we could not ship let's say Zaappaaz ordered 100,000 KN95 masks and it cost us \$0.10 per mask and an additional \$0.10 for shipping, which is \$0.20 per mask. profit that Zaappaaz made on those sales?

Q. So what kinds of things needed to go into the

A. One of the biggest ones is obviously ad costs,

which is probably 50 percent of our gross. These are

numbers I'm throwing out, but logistics is the second

calculation of Zaappaaz's profit on those sales?

A. Not even close.

1	biggest expense, and then there's other things, rent	1	subpoena out there.
2	and all that stuff, but those are the top three. And	2	A. Yeah.
3	fraud was a huge debt to our profits as well.	3	Q. So I just wanted to make sure and clarify that.
4	Q. Tell me a little bit more about that, when you	4	MR. BLANCHARD: We'll reserve the rest of our

6	A. The PPE industry, if anybody was in it, they	6	MS. SCHAEFER: Okay.
7	will tell you the number one thing was fraud. People	7	MR. BLANCHARD: We are done, right?
8	were saying they had gloves that didn't have gloves.	8	MS. SCHAEFER: Yes.
9	People were saying they had goods that didn't have	9	(Reading and signature not waived.)
10	goods, and people were basically saying shipping the	10	(Whereupon, the proceedings at 7:14 p.m., were

12	customers that paid with disallowed credit cards and	12	
13	the chargeback came as fraudulent. So we ate the	13	
14	charge and we ate the cost of the goods.	14	
15	Q. And still they got the goods?	15	
16	A. Somebody got the goods.	16	
17	Q. Occasionally there was a late delivery. Has	17	
18	anybody ever called you and said, you know, I got my	18	
19	mask that was two days late; I don't want to do anymore	19	
20	business like that because it was two days late?	20 21	
21	A. No, it was the reverse. We got customers that	$\begin{vmatrix} 21\\22 \end{vmatrix}$	
22	called to say we understand the situation, what is	23	
23 24	happening with our order.	24	
2 <del>4</del> 25	Q. Pretty reasonable, right? A. I think so.	25	
	A. 1 tillik so.	23
